

# UVA FACULTY DEPARTURE CHECKLIST

## GENERAL INFORMATION

The following is a standardized checklist for faculty departing the University, whether through resignation, retirement, or termination. Faculty members assuming a new position at the University that will result in a significant change in responsibilities may also need to complete parts of the checklist. The checklist must be completed and signed by the faculty member and their department chair in order for the faculty member to officially exit from the University.

This checklist includes important information pertaining to University Human Resources, departmental logistics, and protocols for active research projects. This process is also intended to help departments and schools assist the University in complying with state and federal guidelines when closing out projects associated with sponsored research.

**Cover Sheet and Signature Page** contains the faculty member's basic information and forwarding address. It also indicates which of the appendices may apply to the faculty member's duties and research. Signatures on this sheet testify that part 1, part 2, and any necessary appendices are complete.

**Part 1: Faculty Member Responsibilities** should be provided by the designated department representative to the faculty member upon notice of their departure from the University. Some items within the document must be completed *90 days prior* to departure.

**Departmental Responsibilities** should be completed by the designated department representative to ensure all appropriate University entities are notified of the faculty member's departure and verify that the department has acknowledged the various faculty member tasks in part 1.

**Appendices** contain the close-out procedures and contact information for concerns specific to research, such as human subjects, animal subjects, patents, equipment and/or data transfer, hazardous materials etc. *Completion of an appendix is required only if it is applicable to the work of the individual faculty member. Departments may add their own specific appendices tailored to their needs as appropriate.*

## DATES

### Resignation

Members of the teaching faculty who do not intend to return to the University for the upcoming academic year are expected to indicate their intention in writing to their dean or department chair as soon as possible, generally between October 1<sup>st</sup> through May 1<sup>st</sup>, but no later than May 15<sup>th</sup> of the academic year in which he or she intends to resign.

### Retirement

A faculty member with teaching responsibilities who wishes to retire should inform the department chair, dean and the vice president and provost in writing by March 1 of the year in which retirement is planned.

*In the event that a faculty member departs the University unexpectedly, is deceased or otherwise is not able to carry out their responsibilities, department personnel should immediately complete both part 1 and 2, as possible.*
