The University of Virginia is committed to equal employment opportunity and affirmative action. To fulfill this commitment, the University administers its programs, procedures, and practices without regard to age, color, disability, gender identity, marital status, national or ethnic origin, political affiliation, race, religion, sex (including pregnancy), sexual orientation, veteran status, and family medical or genetic information and operates both affirmative action and equal opportunity programs consistent with resolutions of the Board of Visitors and with federal and state requirements, including the Governor’s Executive Order on Equal Opportunity.

The University’s policies, “Preventing and Addressing Discrimination and Harassment” and “Preventing and Addressing Retaliation,” implement this statement. The Office of Equal Opportunity Programs (EOP) has complaint procedures available to address alleged violations of these policies. EOP is also charged with educating responsible employees on their obligations as stated in the policy “Reporting by University Employees of Sexual Misconduct Disclosures Made by Students.”

The University of Virginia will not discharge or in any other manner discriminate against employees or applicants because they have inquired about, discussed, or disclosed their own pay or the pay of another employee or applicant. However, employees who have access to the compensation information of other employees or applicants as a part of their essential job functions cannot disclose the pay of other employees or applicants to individuals who do not otherwise have access to compensation information, unless the disclosure is (a) in response to a formal complaint or charge, (b) in furtherance of an investigation, proceeding, hearing, or action, including an investigation conducted by the employer, or (c) consistent with the University’s legal duty to furnish information.

Office of the Executive Vice President and Provost
Welcome

This *Faculty Handbook* is intended to serve as an orientation resource for new faculty members and as an ongoing reference guide for current faculty members. It provides information about the University of Virginia and the conditions of employment, benefits, and policies that are essential to the faculty experience. These policies are intended to support our faculty: an innovative, collaborative, and diverse group of scholars and educators.

The policies referenced in this handbook are available in full through the website of the Office of the Executive Vice President and Provost. As policies are continually revised and updated, readers should use the references in this handbook for general guidance only and should consult the policy itself for the most current and complete information.

The University of Virginia aims to foster a dynamic, cohesive community. We intend for this handbook to help each faculty member find and make use of the many opportunities and supportive programs the University offers. We welcome your feedback: provost@virginia.edu.

*Thomas C. Katsouleas*
Executive Vice President and Provost

CHAPTER ONE: HISTORY, ORGANIZATION, AND PURPOSE

1.1 History

Thomas Jefferson founded the University of Virginia in 1819. He planned the curriculum, recruited the first faculty, and designed the Academical Village. Comprised of a central lawn and surrounded by residences and gardens, the “village” symbolizes Jefferson’s intent to create an institution that supports the free and open exchange of ideas, close interaction among students and faculty, and collegial collaboration across disciplines. The Academical Village is an architectural design of global significance; UNESCO declared it a World Heritage site in 1987 in recognition of its universal cultural value.

Jefferson intended to establish an institution that would be, in his words, “based on the illimitable freedom of the human mind.” Yet, the construction of the Academical Village relied in large part on enslaved black laborers, and slaves were a significant part of the University’s operation for almost fifty years. Like other U.S. colleges and universities, the University has recently focused much-needed attention on the role of slavery in its history. In 2015, the Board of Visitors named a newly constructed residence hall, Gibbons House, for William and Isabella Gibbons, husband and wife, who were enslaved by different professors and lived in different pavilions at the University in the mid-19th century. For more information on slavery at the University, see the President’s Commission on Slavery and the University.

With regard to its mission, the University was innovative for its day because it was dedicated to educating leaders in practical affairs and public service rather than for professions in the classroom and the pulpit exclusively. It was the first nonsectarian university in the United States and the first to use the elective course system. Where it excelled in regard to curricular innovation, however, it was representative of its time in the make-up of its student body and faculty. When the University opened for classes in 1825, its faculty of eight and student body of sixty-eight were all white and all male. Not until the 20th century would the University admit women and men of color or white women, and it would be one of the last public institutions of higher education in the U.S. to do so.

At the time of the University’s opening in the 19th century, instruction included ancient languages, modern languages, mathematics, moral philosophy, natural philosophy, chemistry, law, and medicine. Jefferson opposed the granting of degrees on the grounds that they were “artificial embellishments.” In 1831, however, the Board of Visitors authorized granting the Master of Arts degree, which throughout most of the nineteenth century remained the University’s most prestigious academic award. The M.D. degree was awarded to the first graduates of the School of Medicine in 1828, and the LL.B. was first awarded for law school graduates in 1842. The bachelor’s degree was awarded beginning in 1849, but did not become the standard undergraduate degree and a prerequisite for the master’s degree until 1899, bringing the University into conformity with other institutions of higher learning. The Ph.D. has been awarded since 1883.

Still small for a state institution, the University of Virginia today enrolls almost 22,000 on-Grounds students, about 71 percent of whom are undergraduates (69 percent Virginians), slightly less than a third are graduate-level, and 53 percent are women. Among first-year students enrolling at the
University in fall 2014, slightly more than 30 percent identify with a racial background other than white.

1.2 Organization
To better understand the University’s administrative structure it is helpful to consult a graphic presentation of its plan of organization.

The Rector and Board of Visitors
In 1819 an act of the General Assembly of Virginia established the University as a public corporation with the name “The Rector and Visitors of the University of Virginia.” The governing body of this corporation is styled the “Board of Visitors.” The seventeen members of the Board of Visitors are appointed by the governor and confirmed by the Senate and House of Delegates of Virginia for four-year terms. At least twelve members must be from the commonwealth at large and at least twelve must be alumni or alumnae of the University; at least one must be a physician with administrative and clinical experience in an academic medical center. The board may appoint a faculty member and a full-time student at the University as nonvoting members of the board. The duties and powers of the board are exercised in order to advance the University’s mission (see section 1.4, “The Mission of the University”). For more information on the major powers and duties of the board, see the Manual of the Board of Visitors of the University of Virginia.

The President
The president is responsible to the Board of Visitors as the chief executive officer of the University. The president is also:

- a member of the General Faculty and of the faculty of each of the schools and serves as the president of the Faculty Senate;
- responsible for operating the University in conformity with the purposes and policies determined by the Board of Visitors;
- an adviser to the board and recommends policies and programs, including educational programs and new degrees, that will best promote the interests of the University; and
- active in determining the internal administrative structure of the University, appointing or providing for the appointment of all administrative officers (except the vice presidents and the chancellor of the University of Virginia’s College at Wise, who are nominated to the board by the president).

The president is authorized to suspend any faculty member at any time for proper cause, in accordance with appropriate procedure, after consultation with the provost, the dean, department head, and other affected administrative officers. A full list of the president’s duties appears in the Manual of the Board of Visitors of the University of Virginia.
Senior Administrative Officers

The president delegates authority to senior administrative officers who are responsible for the major functional areas (subtitles are hyperlinked the webpages belonging to each senior administrative office):

**Executive Vice President and Provost**

The executive vice president and provost is the chief academic officer of the University. The provost is charged by the Board of Visitors and the president with overseeing education, research, and public service in the schools of the University, in the University’s libraries and museums, and in numerous other academically related units of the University.

The budgets of these units flow through the Office of the Executive Vice President and Provost. The provost also oversees the recruiting, hiring, retention, performance, promotion, and tenure of faculty members. In the University’s organizational structure, offices associated with athletics, budget, development, health affairs, financial aid, student affairs, and technology report to the president through different vice presidents.

The provost has charged the vice provosts with oversight of particular aspects of the office’s operations:

- the senior vice provost,
- the vice provost for academic affairs,
- the vice provost for academic outreach,
- the vice provost for administration and chief of staff,
- the vice provost for the arts,
- the vice provost for educational innovation and interdisciplinary studies,
- the vice provost for faculty affairs,
- the vice provost for faculty development, and
- the vice provost for global affairs.

**Executive Vice President and Chief Operating Officer**

The executive vice president and chief operating officer is charged by the Board of Visitors and president with overseeing the non-academic support areas of the University and supporting special initiatives that have a University-wide impact. The office is guided by its commitments to:

- integrity and sound management practices;
- academic excellence;
- customers, including students, patients, and visitors;
- people, respecting and empowering them, holding them accountable, and rewarding them for performance; and
- simplification of processes and improvements in effectiveness and efficiency.

**Executive Vice President for Health Affairs**

The executive vice president for health affairs is responsible for the School of Medicine, the School of Nursing, the Claude Moore Health Sciences Library, and the UVA Medical Center. The executive vice president oversees the clinical enterprise that includes clinical faculty and staff of the UVA Medical Center, UVA Children’s Hospital, the Transitional Care Hospital, multiple ambulatory clinics, home health care, and regional clinical programs throughout Virginia.
Senior Vice President for University Advancement
The senior vice president for university advancement supports the University’s fourfold mission of teaching, research, health care, and public service by providing resources and expertise to the University’s development community. In consultation with UVA’s schools and related foundations, University Advancement sets demanding guidelines for fundraising staff through policies and procedures that meet the highest ethical and professional standards.

University Advancement directs regional and global fundraising and engagement initiatives, planned and annual giving, University arts development, and corporate and foundation relations. It also provides infrastructure services, such as information technology, research, gift accounting, and donor relations.

The senior vice president also leads Advancement Communications, which supports a broad array of fundraising initiatives. In particular, creative staff in Editorial and Design develops print and electronic publications for Advancement Communications and the University’s leadership that illustrate the vital role played by private gifts in the life of this public University. Interactive Media supports engagement and fundraising efforts through the development of electronic and social media communications, allowing the University to reach out to its global community.

Vice President for Information Technology
The vice president for information technology works with University leadership to create, articulate, and promote a university-wide information technology strategy that advances the institution’s mission in teaching, research, service, and clinical care. The vice president plans and develops new information systems capabilities through collaboration with academic and support units and represents the University in national and international discussions about how to use information technology to advance the University’s mission. The vice president oversees the work of the institution’s chief information officer, who facilitates the effective coordination of information technology-related activities across Grounds and coordinates the University Committee on Information Technology and the Deans’ Technology Council, both of which help guide institution-wide information technology projects and establish strategic direction.

Vice President and Chief Officer for Diversity and Equity
The Office of the Vice President and Chief Officer for Diversity and Equity assists and monitors all units of the University in their efforts to recruit and retain faculty, staff, and students from historically underrepresented groups and to prove affirmative and supportive environments for work and life at the University of Virginia. The office provides leadership, information, consultation, coordination, and assistance to the various units and constituencies within the University in an effort to embrace diversity and equity as pillars of excellence, synergize actions at all levels of the institution, and cultivate inclusiveness and mutual respect throughout the community.

Vice President and Chief Student Affairs Officer
The Office of the Vice President and Chief Student Affairs Officer supports the University’s primary purpose of enriching the minds and lives of its students. The division promotes the intellectual, cultural, personal, and social development of students while enhancing their physical and psychological well-being. Student affairs programs and services help students learn responsible decision-making; clarify personal values and identity; foster interpersonal relationships; facilitate career exploration; and promote the value of diversity, of informed citizenship, and of full membership of all students within the University community. The vice president and chief student affairs officer oversees: the Office of the Dean of Students, the Office of African-American Affairs, University Career Services, the Department of Student Health, and WTJU.
Vice President for Management and Budget
The vice president for management and budget oversees operations that fall under an array of University departments and programs, including budget, capital programs, facilities management, procurement and diversity supplier services, state governmental relations, and process simplification.

Vice President for Research
The Office of the Vice President for Research (VPR) is responsible for the integration and enhancement of research activities across UVA’s eleven schools and multiple research centers. VPR leads university-wide strategic growth activities, including multidisciplinary groups in environmental sustainability, innovation, energy systems, and biosciences. VPR also coordinates the various University units that comprise the research infrastructure, including the acquisition of research funding, the planning and development of academic research space, research commercialization, the incubation of new companies and recruiting of corporate research partners to local research parks, and public outreach.

Vice President and Chief Human Resources Officer
The vice president and chief human resources officer oversees all human resource functions for the academic division of the University, as well as overseeing the University of Virginia’s College at Wise and for health plan and other benefits for the University’s Medical Center. Functional areas within University Human Resources (UHR) include: benefits, compliance and immigration services, career and leadership development, work/life wellness programs, compensation, faculty/staff relations, recruitment and staffing, and payroll.

Other Senior Administrative Officers
In addition to these vice presidents, two other senior officers, University counsel, and the athletic director, report to the president and serve as members of the president’s senior cabinet. The Office of University Counsel is the University’s chief legal office and is responsible for providing advice on all legal matters affecting the University under the direction of the attorney general, the Board of Visitors, and the president. The athletic director is responsible for supervision of all University intercollegiate athletic and intramural programs and facilities. The chief audit executive reports directly to the Board of Visitors. Other officers who report directly to the president include the:

- Chancellor of the University of Virginia’s College at Wise,
- Chief of Staff and Associate Vice President for Administration,
- Chief Communications Officer,
- Director of Equal Opportunity Programs,
- Executive Assistant for State Governmental Relations,
- Director of the White Burkett Miller Center of Public Affairs, and the
- Secretary to the Board of Visitors (who, like the University Counsel, is an Officer of the Board of Visitors).
Divisions

The president and vice presidents manage a diverse enterprise that is organized for budgeting purposes into three operating divisions:

- The Academic Division is responsible for the central functions of instruction, research, and public service.
- The Health System provides health care services.
- The University of Virginia’s College at Wise, which constitutes the third division, is a four-year residential college located in southwestern Virginia.

Academic Division

Approximately 2,000 full-time faculty members teach in programs leading to bachelor’s, master’s, doctoral, and first professional degrees. The eleven schools of the University are as follows:

- School of Architecture
- College and Graduate School of Arts and Sciences
- Darden School of Business
- McIntire School of Commerce
- School of Continuing and Professional Studies
- Curry School of Education
- School of Engineering and Applied Science
- School of Law
- Frank Batten School of Leadership and Public Policy
- School of Medicine
- School of Nursing

The Office of Summer and Special Academic Programs extends the regular academic year through course offerings that meet the academic needs of resident, degree students, and non-degree-seeking students who are enrolled in courses for their professional development. Summer and Special Academic Programs is a separate administrative unit with its own director who works directly with departments and schools in selecting the courses offered and instructors employed during the summer. Each summer and January Term (J-Term), the University of Virginia offers a rich selection of courses to over 4,000 students.

The University hosts two academic organizations with statewide, regional, and national affiliations: the Virginia Foundation for the Humanities and the University of Virginia Press.

Several federal and state centers of professional activity are also located in the University community. They include the state’s Division of Forestry, the Division of Mineral Resources, the Virginia Highway and Transportation Research Council, the National Radio Astronomy Observatory, and the Federal Executive Institute. The U.S. Army Judge Advocate General’s Legal Center and School teaches military law to lawyers in the armed forces.

Health System

Comprehensive health care services are provided by the University of Virginia Health System, which consists of University of Virginia Medical Center, the School of Medicine, the School of Nursing, and the University Physicians Group, and which operates more than forty clinics at numerous sites within and distant from the main precinct of the Medical Center. The Medical Center (originally
called University Hospital) was established in 1901 to complement the teaching and research activities of the School of Medicine and to provide hospital and related services to a broad region.

**University of Virginia's College at Wise**
This four-year undergraduate college was opened in 1954 as a two-year branch of the University under the name, Clinch Valley College. In 1999, the General Assembly changed the name of Clinch Valley College to the University of Virginia’s College at Wise. It functions to some extent as an independent institution, although its chancellor reports to the president of the University of Virginia and its Board of Visitors. It currently enrolls approximately 2,000 students.

### 1.3 University Committees
The University draws on the knowledge and resources of faculty, students, and staff through their service on a number of committees dedicated to furthering the mission of the institution. University committees serve a variety of functions and vary in terms of their charges and memberships. Their charges, committee structures, and current memberships may be explored through each committee’s website, available until February 2015 on the University Committees website and, following that, through the website of the sponsoring official, listed in parentheses after each committee below with a link, where available, to the committee’s web site:

- Athletics Advisory Council (director of Intercollegiate Athletics Programs)
- Committee on Benefits (vice president and chief human resources officer)
- Academic Calendar Committee (executive vice president and provost)
- Committee on Financial Aid (executive vice president and chief operating officer)
- Committee on Information Technology (chief information officer)
- Libraries Committee (executive vice president and provost)
- Master Planning Council (executive vice president and chief operating officer)
- Committee on Public Art (executive vice president and provost)
- Radiation Safety Committee (vice president for research)
- Committee on Sustainability (executive vice president and chief operating officer)
- Thomas Jefferson Awards Committee (executive vice president and provost)
- Committee on Undergraduate Admission (executive vice president and provost)
- University of Virginia Press Board of Directors (executive vice president and provost)
- Virginia Status of University Students Committee (executive vice president and provost)
- Women’s Leadership Council (vice president and chief officer for diversity and equity)

The Faculty Senate (see also section 2.1) supports a broad range of standing committees and task forces, offering faculty members the opportunity to contribute to the governance of the University. The full listings of these opportunities can also be found on the Faculty Senate's website.
1.4 Mission Statement of the University of Virginia

The Faculty Senate, with the concurrence of the President, approved revisions to the University’s mission statement on May 15, 2013, to replace the statement that had been in effect since May 31, 1985. The Board of Visitors, after making additional modifications, approved the mission statement on November 15, 2013. The State Council of Higher Education for Virginia (SCHEV) approved the mission statement on January 14, 2014, to be effective 30 days following adjournment of the 2014 General Assembly.

Purpose
The University of Virginia is a public institution of higher learning guided by a founding vision of discovery, innovation, and development of the full potential of talented students from all walks of life. It serves the Commonwealth of Virginia, the nation, and the world by developing responsible citizen leaders and professionals; advancing, preserving, and disseminating knowledge; and providing world-class patient care.

We are defined by:

- Our enduring commitment to a vibrant and unique residential learning environment marked by the free and collegial exchange of ideas;
- Our unwavering support of a collaborative, diverse community bound together by distinctive foundational values of honor, integrity, trust, and respect; and
- Our universal dedication to excellence and affordable access.
1.5 Accreditation, Licensing, and Certification

The University of Virginia has been accredited by the Southern Association of Colleges and Schools Commission on Colleges (SACSCOC) since 1904. The last reaffirmation of the University’s accreditation was in 2007. In addition, a significant number of the University’s academic programs and schools undergo review by accrediting, licensing, or certifying agencies. This listing does not include Medical Center accreditations.

Rev. 5/21/2015
Chapter Two: The Faculty

2.1 History of the Faculty

Thomas Jefferson conceived of the faculty as a peer group responsible both for instruction and administration of the University. Administrative functions have diversified during subsequent growth of the University, but the tradition of faculty participation in governance continues. The original faculty met for the first time on April 12, 1825, elected a chair, and organized the instructional program. From its founding until 1856 the University changed little. Then, as now, student enrollment determined the number of faculty; during the first twenty years the average attendance was only 190. By 1860 there were thirteen faculty and three major divisions: the literary and scientific schools, the School of Law, and the School of Medicine.

When student enrollment recovered from the Civil War and began to grow, major changes started to occur. New fields of study focused on the applied aspects of mathematics, biology, agriculture, engineering, and chemistry. The humanities established a separate professorship of English language and literature, as well as professorships of modern languages, history, and economics. By 1901 the medical school had expanded by offering a four-year course of study and a training school for nurses; faculty in business administration and law had increased as well.

The system of faculty ranks that we have today began in 1899 when an associate professor was appointed to help with instruction in romance languages. When the number of students grew too large for the professor of romance languages to instruct both undergraduate and graduate students, the work was divided and a junior professor was appointed to assist. With experience, these junior professors (also referred to as adjuncts) could become associate professors and, finally, a professor. In this way the faculty ranks diversified as the number of students increased. The undergraduate program became known as the College, and the graduate program was identified as the University.

General Faculty

The term “General Faculty” came into use around the turn of the 20th century. The faculty as a whole still governed the University, but committees of professors had assumed independent oversight of students and curricula in the various specialized areas of study, especially in the professional schools. Soon the General Faculty formally recognized and delegated its powers over students and curricula to these school faculties. After 1903 the faculty as a whole was known formally, as it is today, as the General Faculty of the University. As the number of administrative and supporting staff with faculty status grew after 1970, the term “general faculty” was used to identify those who were elected to the General Faculty of the University but not to the tenured ranks of faculty of the schools. Today, “general faculty members” are those who hold salaried faculty appointments but are not eligible for tenure. The General Faculty of the University still convenes once each year to approve the conferral of degrees.
The Faculty Senate

The Faculty Senate represents all faculties of the University with respect to all academic functions such as the establishment and termination of degree programs, major modifications of requirements for existing degrees, and action affecting all faculties, or more than one faculty, of the University. Additionally, the Senate advises the president and the Board of Visitors concerning educational and related matters affecting the welfare of the University.

The Faculty Senate is a representative body consisting of approximately eighty members elected from the schools. Its presiding officer is the president of the University. The president, the executive vice president and provost, the vice presidents of the University, the deans of schools, and the University librarian serve as ex officio members of the Faculty Senate with voice but without vote (except in the case of a tie vote, in which case the president casts the deciding vote). The Faculty Senate has an elected chair and an executive council. The chair has the power to call meetings of the Faculty Senate on behalf of the executive council.

The Constitution and By-laws of The Faculty Senate can be found online.

School Faculties

Faculty members whose primary responsibilities are teaching and research are elected to one of the following school faculties: architecture, arts and sciences, commerce, continuing and professional studies, education, engineering and applied science, business, law, leadership and public policy, medicine, and nursing. They hold tenured or tenure-eligible positions in their respective schools and are also members of the General Faculty of the University.

The faculty organization of each school consists of the president of the University, the dean of the school, and all professors, associate professors, assistant professors, and instructors in the school. The executive vice president and provost is an ex officio member of each school’s faculty but votes only in that school in which he or she holds tenure. Instructors, lecturers, visiting professors, individuals holding tenure-ineligible positions, and those appointed to research or clinical positions are voting members of the school faculties only if their school faculty grants them voting rights. A school faculty may nominate a faculty member of another school to its membership.

The College and Graduate School of Arts and Sciences administers graduate degree programs in the basic medical sciences, the Ph.D. in Architectural History, the Ph.D. in Nursing, and all graduate programs of the departments in arts and sciences. Other graduate degrees are awarded by the respective schools.

Each of the school faculties formulates its own policies governing admission of its students, approves all courses, establishes all degree requirements, enacts and enforces rules governing academic work, approves candidates for degrees, and exercises jurisdiction over all other educational matters pertaining to that school, subject to the authority of the General Faculty of the University and the Faculty Senate in matters affecting general policy.
2.2 Faculty Role in University Governance

Authority for the governance of the University is vested by statute in the Board of Visitors by the General Assembly of the Commonwealth of Virginia. The board’s responsibilities, specified by state statute, include but are not restricted to the appointment of the University president; appointment, promotion, and granting of tenure; removal of members of the faculty; the prescription of faculty responsibilities; the setting of faculty salaries; the determination of student tuition, fees, and other charges; and the government and discipline of students. The board prescribes the duties of the president, and the president has supreme administrative direction of the University, subject to the authority of the board. The board has delegated certain authority and responsibilities to the president and the chief academic officer, who have delegated certain of these responsibilities to the faculty.

University faculty members have played an important role in assisting the board in fulfilling its responsibility from the University’s founding to the present day. Through the work of the Faculty Senate, a representative body consisting of members elected from each of the schools, faculty recommend approval of the establishment of new degree programs and major modifications to existing degree programs. Faculties also approve the conferral of all degrees and oversee the development of curricula in their respective schools and departments. Each spring, the Board of Visitors appoints a non-voting advisory faculty representative to serve on the Board. In addition, Faculty members serve as non-voting consulting members on committees of the Board of Visitors, as well as on standing administrative committees of the University, including the University Policy Review Committee, which reviews administrative policies. The Faculty Senate also provides the executive vice president and provost with advice and counsel on other academic matters. Through all of these mechanisms, faculty members share their expertise and insights on academic matters with the provost, the president, and members of the Board of Visitors.

2.3 Academic Freedom

Faculty academic freedom is the freedom to teach; to explore all avenues of scholarship, research, and creative expression and to disseminate the results; and to speak or write on any matter of public concern and or any matter related to professional duties and the functioning of governance of the University. Academic faculty have the free speech right to address in any forum any matter that is of social, political, economic, or other interest to the larger community, without restraint beyond that imposed by professional standards and ethics or by law.

2.4 Professional Ethics

The University of Virginia subscribes to a Code of Ethics approved by the Board of Visitors and the Statement on Professional Ethics of the AAUP (AAUP Policy Documents & Reports, 2001 Edition, pp. 133-134). The applicable portions of the AAUP’s introduction and statement are reprinted here:

In the enforcement of ethical standards, the academic profession differs from those of law and medicine, whose associations act to ensure the integrity of members engaged in private practice. In the academic profession, the individual institution of higher learning provides this assurance and so should normally handle questions concerning propriety of conduct within its own framework by reference to a faculty group.
Professors, guided by a deep conviction of the worth and dignity of the advancement of knowledge, recognize the special responsibilities placed upon them. Their primary responsibility to their subject is to seek and to state the truth as they see it. To this end professors devote their energies to developing and improving their scholarly competence. They accept the obligation to exercise critical self-discipline and judgment in using, extending, and transmitting knowledge. They practice intellectual honesty. Although professors may follow subsidiary interests, these interests must never seriously hamper or compromise their freedom of inquiry.

As teachers, professors encourage the free pursuit of learning in their students. They hold before them the best scholarly and ethical standards of their discipline. Professors demonstrate respect for students as individuals and adhere to their proper roles as intellectual guides and counselors. Professors make every reasonable effort to foster honest academic conduct and to ensure that their evaluations of students reflect each student’s true merit. They respect the confidential nature of the relationship between professor and student. They avoid any exploitation, harassment, or discriminatory treatment of students. They acknowledge significant academic or scholarly assistance from them. They protect their academic freedom. As colleagues, professors have obligations that derive from common membership in the community of scholars.

Professors do not discriminate against or harass colleagues. They respect and defend the free inquiry of associates. In the exchange of criticism and ideas professors show due respect for the opinions of others. Professors acknowledge academic debt and strive to be objective in their professional judgment of colleagues. Professors accept their share of faculty responsibilities for the governance of their institution. As members of an academic institution, professors seek above all to be effective teachers and scholars. Although professors observe the stated regulations of the institution, provided the regulations do not contravene academic freedom, they maintain their right to criticize and seek revision. Professors give due regard to their paramount responsibilities within their institution in determining the amount and character of work done outside it.

When considering the interruption or termination of their service, professors recognize the effect of their decision upon the program of the institution and give due notice of their intentions. As members of their community, professors have the rights and obligations of other citizens.

Professors measure the urgency of these obligations in the light of their responsibilities to their subject, to their students, to their profession, and to their institution. When they speak or act as private persons they avoid creating the impression of speaking or acting for their college or university. As citizens engaged in a profession that depends upon freedom for its health and integrity, professors have a particular obligation to promote conditions of free inquiry and to further public understanding of academic freedom.

### 2.5 Faculty Appointments and Employment

Faculty appointments at the University may be:

- tenured (that is, without term),
Chapter Two: The Faculty

- tenure-track (eligible for consideration of tenure in accordance with the University’s promotion and tenure policy and the promotion and tenure policies of the individual schools),
- or non-tenure-track (for limited term and ineligible for consideration of tenure).

Faculty members holding different types of appointments are governed by different policies and may hold different ranks. For more information about faculty appointments and initial employment, see the following policies:

**Faculty Appointment Types and Titles**
This policy describes the different types of faculty appointments (including tenured/tenure-track, non-tenure-track, joint, and courtesy appointments) and the different faculty titles in use at the University (including professorial ranks and tenure-ineligible titles).

**Employment of Non-Tenure-Track Faculty**
This policy is the primary employment policy for faculty members whose appointments are not eligible for consideration of tenure and who are always appointed or reappointed for limited terms.

**Faculty Wage Employment**
This policy explains the conditions and terms that govern the limited employment of individuals hired to complete a short-term, academic work assignment, such as teaching a course for one or two academic terms. Faculty wage employees are not governed by the policy “Employment of Non-Tenure-Track Faculty.”

**Faculty Background Checks**
This policy describes the process for performing background checks before new faculty members are hired or former faculty members are rehired after a break in service of one year or more. The policy also explains the different types of background checks.

**Faculty Personnel Files**
This policy details the materials that should be retained in each faculty member’s personnel file at the department or school level and the conditions that govern release of information from these files to third parties or to the faculty member.

**Benefits (University Human Resources)**
Faculty members, especially those who are new to the University, must work with their school or unit human resource officer upon arrival to ensure they’ve completed all the necessary forms related to retirement, health, dental, and vision plans. Faculty members may make certain changes to their benefit plans during the open enrollment period each fall. For more information, contact your school or unit human resource officer or visit the University Benefits website maintained by University Human Resources.

**Faculty Leaves**
The University offers a number of different types of professional and personal leave for faculty members. This policy explains the different types of leaves and provides overall guidance regarding leave requests, approvals, and the impact of various types of leave on a faculty member’s benefits. The policy also provides a brief explanation of disability or medical leave, leave for individuals on active military duty, leave for individuals serving on a jury, and annual or vacation leave.
Parental Leave
Faculty members anticipating the arrival of a baby or young child in their household should consult the section on parental leave in “Faculty Leaves,” above. In addition, they may wish to consult “Planning for Parental Leave: A Guide to Faculty Policies at the University of Virginia.”

Disaster Leave
Faculty members whose expertise may enable them to provide emergency services during a disaster and faculty members who become the victim of a disaster may be eligible for disaster leave under this policy.

Short-Term Disability
This information site answers frequently asked questions about short-term disability plans for faculty members. The short-term disability plan available to a faculty member is determined by his/her enrollment in either the Virginia Retirement System (VRS) or an Optional Retirement Plan (ORP). See also “Benefits” above.

Other policies related to faculty employment and faculty/administrative appointments:
- Employment Eligibility Verification (Completing Form I-9)
- Reimbursement of Moving Expenses
- Appointment, Annual Evaluation, and Reappointment of Academic Deans
- Appointment of Endowed and Eminent Scholar Chairs
- Appointment of Foreign Faculty and Researchers
- Appointment of Unpaid Faculty
- Appointment of Visiting Faculty and Scholars
- Approval of Appointments and Reappointments of Senior School and University Administrators
- Faculty Members Holding Appointments at Other Institutions
- Professors of Practice
- Summer Employment and Appointments
- Faculty Departure Checklist
- Resignation and Retirement Notice
- Emeritus Faculty
- Part-Time Employment of Retired Members of the Faculty

2.6 Faculty Responsibilities
Faculty members engage in a wide range of activities and, depending on the type of appointment they hold, may have responsibility for teaching, conducting research, producing scholarly publications, advising and mentoring graduate and undergraduate students, serving on committees in their departments and schools, or otherwise contributing to the life of the University and their professional disciplines. For more information about the various responsibilities of faculty members, see the following policies:

Academic Faculty Roles and Responsibilities
This policy provides information related primarily to a faculty member’s teaching responsibilities, including the requirement that faculty members with teaching responsibilities must publish a syllabus for each course they teach. It also explains what faculty members should do when they anticipate
being absent from the classroom for more than one week and provides guidance for faculty members who need to schedule additional mandatory course sessions for their undergraduate classes outside the regular class meeting time.

**Faculty Conflicts of Interest**
This policy provides guidance regarding possible conflicts of interest that may be most relevant to faculty members, but for complete details regarding University policy and state law regarding conflicts of interest, faculty members should also consult the University's Conflict of Interests Policy, as well as “Financial Conflicts of Interest for Research Investigators.”

**Consulting and Internal Overload**
The University permits faculty members to consult for agencies and organizations outside of the University and, under exceptional circumstances, to receive supplemental compensation for responsibilities assumed on an overload basis within the University. This policy defines the limits of these consulting privileges.

**Research Misconduct**
The University takes any allegations of research misconduct seriously. This policy explains how allegations of observed, apparent, or suspected allegations of misconduct are reported, investigated, and, if substantiated, handled.

**Information Policy (Computing Policies)**
Faculty members, like all members of the University community, are responsible for using the University’s computing and communication facilities in an ethical, professional, and legal manner. The Information Security, Policy, and Record Office (ISPRO) maintains policies related to data security and protection and responsible use of computing and communication resources. ISPRO also maintains policies that explain:

- how the University responds to copyright complaints;
- how the University protects the copyright of official University websites, digital materials, and copyright-protected software;
- the circumstances that may lead the University to monitor a faculty member’s electronic communications or files;
- the situations in which the University will release electronic communications or files stored on University systems by faculty members;
- the University’s expectations regarding the use of email as a means of official communication with students; and
- what the University does with information it collects from its official University of Virginia websites.

**Ownership Rights in Copyrightable Material**
Although the “work-for-hire” rule in the U.S. Copyright Act gives the University ownership of the copyrights to works produced by its employees within the scope of their employment, in the case of most scholarly and academic works produced by academic and research faculty, the University cedes copyright ownership to the author(s). This policy explains how the University manages the ownership rights of copyrightable material and the circumstances in which the University may elect to assert its rights to work produced by faculty members in the course of their employment.
Agreements/Contracts with Outside Entities
Faculty members are not authorized to sign any document, contract, or agreement on behalf of the University. Faculty members who receive a request from an outside agency asking for their signature on behalf of the University should contact their dean’s office for guidance as to identifying the appropriate authorized signatory at the University and routing the request through appropriate internal review processes.

One of the agreements that faculty members are likely to encounter is an academic program agreement, which is any agreement with an external agency, organization, or institution of higher education that impacts the academic mission of the University. This can include both education programs and unusual research collaborations that fall outside the normal boundaries of sponsored research activities (which are managed by the Office of Sponsored Programs, see chapter 4). The policy, “Academic Approval and Signatory Authority for Academic Program Agreements,” provides more detail on these types of agreements and explains the review processes required for each type of agreement. Faculty members may also wish to consult “Guidelines for Developing Some Common Types of Academic Program Agreements.”

Courses Involving Outside Entities or Vendors
Faculty members who wish to involve outside entities in their courses (for example, to ask professionals in the field to serve as project mentors for projects involving “real-world” problems, or to require students to subscribe to an on-line service provided by a third-party vendor as part of their course) need to be conscious of a number of possible issues. Professionals in the field who work with students on classroom projects (capstone projects, for example), may ask that students sign agreements related to intellectual property or confidentiality before working on particular materials. Such requests must be made in advance of the course and approved by the dean’s office and the Office of the Executive Vice President and Provost (EVPP). For more information, faculty should refer to the student intellectual property policy published in the Undergraduate and Graduate Records.

As for requiring students to purchase on-line services from a third-party vendor as part of a course, because such activities may expose students and their personal information to risk in ways that the purchase of a textbook does not, faculty members should seek guidance from their dean’s office and EVPP prior to establishing such a requirement in any course.

Other policies related to faculty members’ responsibilities:
Use of Alcoholic Beverages and Prohibition of Other Drugs

Research
Copying Copyrighted Material
Federal Classified Research
Faculty Exchanges with Other Institutions
Patent Policy
Payment or Reimbursement of Travel Expenses
Research Policies and Procedures
Solicitation of Grants and Contracts
University Information Technology Accessibility
Use of University Equipment, Facilities, and Space
Use of Working Time and University Equipment for Personal or Commercial Purposes
Use of University’s Federally Registered Trademark
Chapter Two: The Faculty

Instruction and Students
Confidentiality of Student Information (Student Privacy Rights/FERPA) (see also 3.4)
Copying Copyrighted Material for Academic Purposes (Course Readings)
Determination and Assignation of Academic Credit
Grading Practices
Graduate Assistantships
Honor System and the Faculty (see also 3.2)
Inclement Weather/Emergencies
Reporting Sexual Misconduct Disclosures Made by Students
Religious Holidays
Safety and Oversight of Students Working in Laboratories, Shops, and Studios
More Information Regarding Shop and Studio Safety
Student Academic Grievances
Recording of Classroom Lectures and Distribution of Course Materials by Students
Travel Abroad Warning for Students

External Relations
Campaigning For and Serving in an Elected Public Office
Communicating with Government Officials
Communicating with the Media and External Constituencies
Political Activity
Solicitation and Acceptance of Gifts to the University

2.7 Faculty Performance
All faculty members at the University are expected to perform at a high level in all their areas of responsibility. Considerations for tenure, promotion, or salary increases are all, in large part, driven by an evaluation of a faculty member’s performance. For more information regarding the various ways in which faculty members are evaluated, see the following policies:

Promotion and Tenure
The University’s promotion and tenure (P&T) policy, overseen by the executive vice president and provost, explains all aspects of the P&T process, including the probationary period and how faculty members can request an extension to their probationary period (also known as “clock stopping”), the deans’ annual reports on P&T recommendations from the schools and the actions that may be taken by the Provost’s Office in response to those recommendations, the institutional qualifications for tenure (including instruction, research, and service), the institutional qualifications for promotion, and the process that may be followed for an expedited review when necessary. Faculty members should also consult the P&T policy published by their school for details regarding the P&T process and criteria in their school.

Employment of Non-Tenure-Track Faculty Members
In addition to being the primary employment policy for faculty members whose appointments are not eligible for consideration of tenure, “Employment of Non-Tenure-Track Faculty Members” also defines the performance expectations, performance review process, and standards of notice of nonrenewal for this group of faculty members.
Annual Performance Reviews
This policy defines the requirements for annual performance reviews and stipulates that every school or unit is required to publish written policies describing how it meets these requirements and implements an annual review of each faculty member’s performance. The policy also explains how deans, department chairs, or unit heads should respond when the annual review reveals unacceptable performance in any area of a faculty member’s responsibilities.

University Faculty Salaries and Bonuses
Most salaried faculty members in the schools of the University are employed on an academic year basis from August 25 to May 24 and are paid monthly beginning October 1 and ending June 1. These faculty members are sometimes referred to as “nine-month faculty,” although their appointment is usually for one year or more. Faculty members may be paid on a ten-, eleven-, or twelve-month basis if duties are assigned throughout the year and if funds are available to support the assignment over an extended period. Faculty members on twelve-month assignments do not receive extra compensation for summer teaching or sponsored research. The policy, “University Faculty Salaries and Bonuses,” explains the process used to recommend and approve increases to faculty salaries, including salary increases recommended through the annual merit cycle, increases recommended in response to exceptional circumstances (such as retention offers or increased responsibilities), and one-time bonus payments.

Disciplinary Suspension or Termination of Academic Faculty
This policy explains the administrative procedures that must be followed in the event of an academic faculty member’s disciplinary suspension or termination.

2.8 Discrimination, Grievances, and Complaints
In the course of their work at the University, faculty members may encounter situations that raise concerns about discrimination, harassment, or unfair treatment. The University provides a number of venues in which faculty members may file a complaint or share their concerns. For more information, consult the following policies:

Grievance Procedure for Academic Faculty Members
The Faculty Senate’s Grievance Committee maintains a grievance policy for members of the academic faculty (including tenured and tenure-track faculty members, as well as non-tenure-track faculty members whose responsibilities are primarily teaching or research).

Grievance Procedure for Non-Tenure-Track Administrative and Professional Faculty Members
The Office of the Executive Vice President and Provost maintains a grievance policy for members of the non-tenure-track faculty whose responsibilities are administrative or professional.

Discrimination Complaint Procedures (Office of Equal Opportunity Programs)
The Office of Equal Opportunity Programs is responsible for discharging the University’s legal responsibilities to prevent and address discrimination or harassment on the basis of age, color, disability, gender identity, marital status, national or ethnic origin, political affiliation, race, religion, sex (including pregnancy), sexual orientation, veteran status, or family medical or genetic information. To this end, EOP offers both informal and formal complaint procedures and is
available to consult with any individual who has concerns related to discrimination or harassment at the University. For more information, see also:
  Preventing and Addressing Discrimination and Harassment
  Preventing and Addressing Retaliation

2.9 Other Policy Resources at the University

The Undergraduate Record and the Graduate Records are published annually by the Office of the University Registrar (UREG) and are the official source of information regarding student academic and non-academic policies.

The University’s Policy Directory contains policies that relate to areas across the University. Note that not all institutional policies have been migrated to the policy directory, so some policies, including some of the policies referenced in this chapter, may be available only through their respective areas.

The Comptroller’s Office maintains a complete list of financial policies and procedures.

University Human Resources maintains a list of policies and procedures governing University staff (non-faculty employees who participate in the University’s staff system) and classified staff (non-faculty employees who are governed by the Virginia Personnel Act and human resource policies of the Commonwealth of Virginia. In July 2006, the University received authorization from the Commonwealth to maintain its own staff employment system. All non-faculty employees hired after July 1, 2006 are University staff; those hired before that date have the option of converting to University staff or remaining classified staff.

2.10 Faculty Development

The University of Virginia offers a variety of faculty development opportunities throughout the year.

Each fall, the University holds an annual orientation for all new members of the faculty (including those with tenured, tenure-eligible, and tenure-ineligible appointments). This orientation provides an opportunity for new faculty members to learn about resources available to them, as well as an opportunity to interact with other faculty and the broader University community. The president hosts a reception at her residence, followed by a dinner to provide a social venue for welcome, introduction, and networking.

Pan-University professional development opportunities are provided by the following offices:

Information Technology and Services (ITS) offers faculty and technology development through the Instructional Technology Group. This group focuses on the University’s teaching mission and assists in teaching through training, consulting, and development of instructional materials and their deployment.

The Center for Leadership Excellence provides a series of integrated programs and services designed to prepare, equip, and support people to succeed in fulfilling their leadership roles.

The Teaching Resource Center (TRC) conducts teaching consultations, programs, and workshops regularly throughout the year, including the Excellence in Diversity Fellows (EDF) Program, which strengthens the University’s intellectual climate by improving the retention rate of diverse faculty members. EDF offers incoming junior faculty one-year fellowships to help them develop productive long-term careers at the University.
Recognizing that faculty members’ priorities change over the course of their academic careers, the Office of the Executive Vice President and Provost (EVPP) provides a broad range of academic career development opportunities. From the Getting Started @ UVA series, which focuses on early career challenges and opportunities, to programs focused on academic leadership development, EVPP provides workshops, mentoring, and support to all faculty members, including department chairs and deans.

In addition to the above pan-University institutional support, promotion of faculty excellence takes many forms. School-level requirements and criteria, organizational culture, and expectations of faculty development and advancement differ by discipline. Support for practitioners is particularly heightened in professional schools. It is essential that the intricate work of promotion and support for faculty professional development takes place in individual schools or departments that offer their own programs and opportunities tailored to their faculty members. University faculty members are encouraged to contact their respective department chair and/or dean for information on opportunities for research funding, school-based professional development training, mentoring activities, release time for University service, and other faculty development activities.

### 2.11 Additional Academic Resources

The Academic Calendar and Exam Schedule can be found on UREG’s website.

The Summer Session Faculty Handbook is available from the Summer Session Office and is distributed to all faculty teaching in the Summer Session.

Teaching at the University of Virginia. A Handbook for Faculty and TAs, produced by the Teaching Resource Center, offers basic information about teaching at UVA and about offices that serve instructors and students, as well as innovative and thought-provoking perspectives on teaching undergraduates, mentoring graduate students as TAs, and grading students’ work.
CHAPTER THREE: STUDENTS AND STUDENT AFFAIRS

3.1 The Student Body

In fall 2014, nearly 22,000 students were enrolled in the University in on-Grounds courses for credit, with approximately two-thirds of those students studying as undergraduates and the remainder enrolled in graduate programs. In addition, nearly 2,000 students were enrolled in credit courses offered through the School of Continuing and Professional Studies and through other programs offered in various locations throughout Virginia.

The University accepts applicants who demonstrate intellectual ability and academic achievement. It also expects applicants to possess the personal qualities that will enable them to enrich the University community. Undergraduate admission is administered centrally through the Office of Admission, while graduate admission is handled by individual schools.

Admission to the University is highly competitive. The 2014-15 entering class of 3,709 first-year students was drawn from 31,336 applicants and enrolled from 8,997 offers of admission. Among first-year students, 89 percent of admitted students were in the top 10 percent of their high school class.

Approximately 69 percent of the student body is from Virginia. Students come from 49 states and approximately 122 countries. The gender breakdown is 55 percent women and 45 percent men. The student body has become increasingly diverse in recent years. Nearly 30 percent of students identify themselves as members of a minority.

The Office of Institutional Assessment and Studies maintains and reports current information on student enrollment and a variety of other University data.

Several specially selected groups are included in the entering undergraduate class: the Echols Scholars in the College of Arts and Sciences; the Rodman Scholars in the School of Engineering and Applied Science; and the Jefferson Scholars, who are supported for four years of undergraduate study and five renewable years of graduate study.

Students coming directly from secondary school enter the College of Arts and Sciences, the School of Engineering and Applied Science, the School of Architecture, or the School of Nursing. The McIntire School of Commerce admits students after two years of undergraduate study, either at the University or elsewhere. The Curry School of Education admits students to the five-year BA/MT program in their second year of enrollment in the College. Students in that program earn a Bachelor of Arts from the College of Arts and Sciences and a Master's of Teaching from the Curry School of Education. Curry also offers a number of preprofessional programs, including a degree in Kinesiology for entering first-year students and degrees in Youth and Social Innovation and Speech and Communication Disorders for students transferring after two years of undergraduate study. The Batten School of Leadership and Public Policy admits undergraduate students to its bachelor’s program once they have earned 60 credits and also offers an accelerated program that allows
undergraduates to earn a Master of Public Policy along with their bachelor’s degree in four or five years.

Reflective of the University’s global culture, the International Studies Office reports that more than 2,000 students are expected to travel outside the United States for University-related purposes in 2014–15. Such travel may include study, research, internships, service, conferences, presentations, teaching, performances, recruiting, and athletic competitions. International student travel for University-related purposes is subject to the policy on student travel.

Student life is characterized by a commitment to student self-governance with a strong focus on developing leadership skills and building a vibrant, safe residential community. Students are charged with both freedom and responsibility for their individual and collective actions. The Honor System, which is based on the concept of a Community of Trust, forms the heart of student self-governance. As described below, students assume major responsibility for owning and running the structures and organizations that define student life.

3.2 The Faculty Member and the Honor System

Initiated in 1842, the Honor System originated as an effort to ease tensions between the faculty and the student body. Today, however, the central purpose of the Honor System is to preserve and protect a Community of Trust in which students can enjoy the freedom to develop their intellectual and personal potential.

Unlike many other institutions where student systems and disciplinary processes include administrative oversight, the Honor Committee is administered solely by students. They are responsible for all decisions and changes within the system.

An Honor offense is defined as a significant act of lying, cheating, or stealing, where the student knew (or a reasonable University of Virginia student should have known) that such an act was or could have been considered an Honor offense. Three criteria determine whether an Honor offense has occurred.

- **Act**: Was an act of lying, cheating, or stealing committed?
- **Knowledge**: Did the student know, or should a reasonable University of Virginia student have known, that the act in question was or could have been considered lying, cheating, or stealing? (Ignorance of the scope of the Honor System is not considered a defense.)
- **Significance**: Would open toleration of the act in question be inconsistent with the Community of Trust?

If a student’s peers find him or her guilty of committing an Honor offense, the consequence is permanent dismissal from the University. A student who is convicted of an Honor offense following graduation will generally have her or his degree revoked by the General Faculty. Dismissed students may receive assistance from the vice president and chief student affairs officer as they apply to transfer to another institution.
A student who has committed a dishonorable act and wishes to make amends has two options. Before the student has reason to believe the act in question has come under suspicion by anyone, he or she may file a “Conscientious Retraction,” which, if both valid and complete, operates to exonerate the student as to the act in question. After a student has been reported to the Honor Committee, she or he may file an “Informed Retraction,” which allows students to take a two-semester leave of absence before recommitting to the Community of Trust. Degree candidates who file an Informed Retraction in the semester in which they graduate are not eligible to participate in school or departmental graduation ceremonies.

The Honor Committee recommends requiring all students to write out and sign a pledge on all graded work. Appended to an assignment or examination, the pledge is a signed reaffirmation of the student's commitment to academic integrity. The standard pledge reads, "On my honor as a student, I have neither given nor received aid on this examination (or assignment)."

Faculty members who suspect an Honor offense has occurred should contact an Honor advisor or the Honor Committee representative elected from their particular school; contacting an advisor or representative does not obligate the faculty member to file a formal report.

Faculty members are expected not to use their own sanctions as a substitute for an Honor investigation. A faculty member who believes that an investigation has not been conducted properly should notify the Honor Committee or the vice chair for investigations at 434-924-7602.

Faculty members have the discretion to assign grades, or take other appropriate academic measures, regardless of the outcome of an Honor investigation. The assignment of grades and other academic measures are subject to University policies and procedures, including grade appeals.

More information specifically for faculty is available in the University of Virginia Honor System Handbook for Faculty Members and Teaching Assistants.

### 3.3 The Judicial System

The University Judiciary Committee (UJC) is responsible for investigating complaints of student misconduct, as defined by the 12 Standards of Conduct adopted by the University’s Board of Visitors. The UJC hears most cases of alleged misconduct. Exceptions include cases of sexual misconduct and those involving lying, cheating, or stealing, which fall under the jurisdiction of the Honor System.

Any individual or group may file complaints with the UJC according to the committee’s statute of limitations. Should a reported violation proceed to a full investigation and trial, the committee will convene to decide the guilt or innocence of the accused and, if guilty, will render an appropriate sanction. All complaints are heard by a panel of judges elected from the student body.

The First-Year Judiciary Committee, a subcommittee of the UJC composed of first-year students, has jurisdiction over violations committed by first-years in first-year living areas.

Hazing is prohibited by Virginia law and University policy. Faculty members who suspect that an incident of hazing has occurred should report the incident directly to the Office of the Dean of
Students. The incident can be reported by calling the office at 434-924-7133, by calling the Hazing Hotline at 434-243-4293, or by filing a report through the Just Report It system.

3.4 Confidentiality of Student Records

Students attending, or who have attended, the University of Virginia have certain rights under the Family Educational Rights and Privacy Act of 1974 (FERPA or The Buckley Amendment) and related Rules of the United States Department of Education:

- **Access**: Faculty and staff have access to students’ education records only for legitimate educational purposes in performing their duties for the University. Access to education records should not be used for any other purpose.
- **Release**: University employees may not discuss the education records of a student with that student's parents, or any other third party, without the written consent of the student.
- **Grades**: Grades may not be released in any form to third parties without written consent and should only be posted using a randomly assigned identifier.
- **Confidentiality**: If a University employee is ever in doubt, he or she should not release any information from student records without first contacting the Office of the University Registrar (UREG) or the Office of University Counsel for guidance.

**Information about compliance with FERPA** by the University is maintained by UREG. The full University policy regarding student rights to privacy can be found online.

3.5 The Administration of Student Affairs

The Division of Student Affairs supports both undergraduate and graduate students in all aspects of student life at the University of Virginia. Units within the division seek to expand the intellectual, social, and cultural horizons of the student body through a broad range of support services and programs that parallel the University’s formal academic curriculum.

The Division of Student Affairs consists of five main units:

- **Office of the Vice President and Chief Student Affairs Officer**
- **Office of African-American Affairs**
- **Office of the Dean of Students**
  - Housing and Residence Life
  - Newcomb Centers and Services (including Student Activities and Fraternity and Sorority Life)
- **Orientation and New Student Programs**
- **Student Health**
  - Counseling and Psychological Services
  - General Medicine
  - Gynecology
  - Gordie Center for Substance Abuse Prevention
  - Health Promotion
  - Student Disability Access Center
- **University Career Services**
Newcomb Hall serves as the main center of undergraduate student activities at the University. Conveniently located adjacent to the main UVA Bookstore and the Central Grounds Parking Garage, Newcomb houses Fresh Food Co., one of three residential dining rooms on Grounds; a U.S. Postal Service branch; a Bank of America full-service bank; offices for several units within the Office of the Dean of Students; the Student Activities Center; the Kaleidoscope Center for Cultural Fluency; offices for key student organizations, such as Student Council and the Honor Committee; and meeting rooms for students, faculty, and staff. To reserve space in Newcomb, contact Newcomb Hall Event Planning Services.

The Dean-on-Call program, providing 24/7 support and crisis management services for students within the University community, is managed by the Office of the Dean of Students. The number to call is 434-924-7133 during business hours and 434-924-7166 after hours.

All first-year students are required to live together in University housing. After their first year, they may elect to stay on Grounds or move to an off-Grounds apartment or house. Approximately 41 percent of the student body lives on Grounds.

UVA students are highly engaged in activities outside the classroom. More than 700 student organizations offer opportunities for involvement in community service, club sports, the arts, media, professional development, and other interests. About 30 percent of the student body decides to participate in the fraternity/sorority community. Four umbrella organizations—the Inter-Fraternity Council, the Inter-Sorority Council, the Multicultural Greek Council, and the National Pan-Hellenic Council—govern and support all active fraternity and sorority chapters at the University.

In addition to central support services managed by the Division of Student Affairs, most of the University’s schools provide some level of student services and support through student affairs professionals in the school. This is especially true of the graduate and professional schools.

Responsibility for all University students registered through the School of Continuing and Professional Studies lies with the dean of the school. The school’s approach to student affairs aligns with the University’s overall values and student policies, including the Honor System. The school makes appropriate modifications in policies and student services to ensure that they are suitable for part-time adult students studying off-Grounds.

### 3.6 Accommodating Students with Disabilities

Students with physical, learning, or psychiatric disabilities that may require reasonable accommodation at the University can receive assistance through the Student Disability Access Center (SDAC) located in the Elson Student Health Center. The SDAC coordinates disability accommodations and provides direct services, such as housing arrangements; alternate text formats for course material; peer note-taking; extended time for tests; direct support for assistive technology; American Sign Language (ASL) interpretation and other hearing services; and other reasonable accommodations.
3.7 Supporting Survivors of Sexual Assault

Students who have experienced sexual assault are encouraged to report the incident to both the police and the University. In addition, faculty members are required to report any information that they have received, whether intentionally or not, about instances of student sexual misconduct. More details are available on the Sexual Misconduct Reporting website. The website describes the role of a “Responsible Employee,” which is ascribed to the majority of University employees, including faculty members. More information about support for survivors is available on the Sexual Violence Education and Resources website. The site includes an infographic, “Student Sexual Misconduct: What You Need to Know.”
CHAPTER FOUR: UNIVERSITY SERVICES AND RESOURCES

4.1 Course Scheduling, Registration, and Grading

The Office of the University Registrar (UREG) administers the course registration process, provides faculty with class enrollment information, records student grades, and maintains student academic records. UREG also publishes the online Undergraduate and Graduate Records, which contain the official description of courses, degree programs, and academic requirements of the various schools. The University registrar is responsible to the executive vice president and provost for maintaining suitable liaison with the school faculties as they establish and modify the educational program by faculty action.

After departments and schools determine what courses are to be taught, UREG assigns classroom space. Courses are catalogued through the Student Information System (SIS). UREG is responsible for final scheduling and assignment of unused classrooms: any rescheduling of classrooms requires its approval. An individual faculty member may not change the time or meeting place of a class without approval of the appropriate chair or dean and the University Registrar. Faculty members teaching undergraduate courses who wish to require student attendance at special course sessions (for example, to administer a test in the evening, outside the regularly scheduled class time) should schedule these special sessions in SIS at the beginning of the term whenever possible.

The grades and symbols used to record academic progress are established by the Faculty Senate. Each school, however, determines which individual grades and symbols it will use. Students are graded according to the grading system of the school in which they are registered, not according to the grading system of the school through which the course is taught. The grading practices of each school are given in the Undergraduate and Graduate Records.

Faculty are responsible for fair grading practices and prompt submission of grades through their departments and schools to UREG. No grade may be changed after it is submitted to UREG without the approval of the school dean. The dean may authorized a grade change only in accordance with the school’s grade appeal policy or when an instructor certifies that, because of an error in calculation or transcription, an incorrect grade has been submitted.

The graduate professional schools set their own examination schedules; otherwise, the examination schedule is set by UREG and, except for scheduling makeup exams, faculty are not permitted to alter the time of a scheduled examination.

4.2 UVACollab

UVACollab is the online collaboration and learning environment at the University. Anyone at UVA may create and use collaboration sites and/or course sites with no roster to facilitate the work of project teams, research groups, committees, etc.
4.3 University of Virginia Bookstore

Located on the top floor of the Central Grounds Parking Garage, the University of Virginia Bookstore is a full-service bookstore for textbooks, supplies, general book needs, gifts, and UVA insignia merchandise. Services include photo-processing, searching for out-of-print books, binding of journals, books, and theses, and placing special orders for supply items and books in print. A 10% discount is available to faculty members on any book in stock. The bookstore is wholly owned and operated by the University.

Cavalier Computers

A division of the University of Virginia Bookstore, Cavalier Computers offers UVA students, faculty, and staff a wide variety of desktop and laptop computers, computer accessories, and software at educationally discounted prices. Customers can also special order computer equipment or software that is not ordinarily stocked. In addition, Cavalier Computers has a service department with fully trained and accredited technicians.

4.4 Funds for Entertainment of Students

Full-time faculty members with the rank of instructor and above are eligible for reimbursement for hosting students enrolled in their courses and/or academic advisees. Faculty Fellows in Brown, IRC, or Hereford Residential Colleges may also be reimbursed for hosting students from the respective residential colleges.

Reimbursement from the fund will be approved by the Office of the Dean of Students in an amount up to $100 for one occasion per course per semester. Reimbursement to an individual faculty member may not exceed one occasion per course during the fall and spring semesters, J-term, and summer session.

Reimbursement will be approved for hosting only in the faculty residence, in a University Dining Service location, in a University location, or for attendance at a University-sponsored play or musical performance. (Note: Local restaurants do not meet the guidelines.) Alcohol is not a reimbursable expense.

The reimbursement request form can be found online.

4.5 Teaching Resource Center

Begun with the support of the Provost’s Office and a Funds for Excellence grant from the Virginia State Council of Higher Education in 1990, the Teaching Resource Center (TRC) is now a pan-University center for collegial community and committed conversation about teaching at all levels and in all academic disciplines. The TRC offers a number of services and resource materials designed to enhance the teaching abilities and professional development of faculty and teaching assistants at the University of Virginia. The TRC also administers several special programs, recognizes the skills and accomplishments of faculty, and aids in the development of courses.
4.6 The Arts

The University of Virginia offers a variety of Visual & Performing Arts including exhibitions, programs, residencies, and events sponsored by departments, libraries, and museums, including:

- McIntire Department of Art
- McIntire Department of Music
- Creative Writing Program
- Department of Drama
- Dance Program
- Media Studies
- School of Architecture
- Fiske Kimball Fine Arts Library
- Fralin Museum of Art
- Kluge-Ruhe Aboriginal Art Collection
- Heritage Theatre Festival
- Virginia Film Festival

The UVA Arts website and calendar announce upcoming residencies, events, exhibitions, and Arts news. Tickets to performances and events can be purchased through the UVA Arts Box Office.

The Betsy & John Casteen Arts Grounds is a precinct encompassing new, expanded, and renovated structures for the fine and performing arts such as:

- Ruffin Hall, a studio art building
- The Arts Common on the north slope of Carr’s Hill
- The Hunter Smith Band Building
- Restoration of Fayerweather Hall for the art history program
- Renovation and expansion of Campbell Hall for the School of Architecture (including the Fine Arts Cafe.)
- Additions to the Drama Building, including the 300-seat thrust-stage Ruth Caplin Theater

Grant opportunities are available to faculty through annual Faculty Research Grants for the Arts, the Arts Enhancement Fund, the UVA Arts Council and the vice provost for the arts in the Provost’s Office.

4.7 Childcare

The UVA Child Development Centers offer services for children from infancy through pre-K. They are available to faculty, staff, and students for a weekly fee but enrollment is limited and interested parents usually encounter a waiting list. Anyone anticipating the arrival of a child should contact the centers as early as possible to inquire about enrollment and complete a wait list application. In addition, the UVA Health System offers two child care centers: Sharon L. Hostler Child Development Center and Malcolm W. Cole Child Care Center. Services at these centers are available to UVA faculty and staff, although enrollment is prioritized for the children of UVA Medical Center employees.

In addition, UHR offers backup care options for children and elders when faculty and staff encounter a temporary disruption to their regular care options. For more information, see the UHR website.
Faculty who would like additional information regarding childcare services in the community or who
would like to talk with a counselor about making the transition back to work following the arrival of
a child may contact the Faculty and Employee Assistance Program (FEAP) at 434-243-2643 for a
free and confidential appointment.

4.8 Dining Services
University of Virginia Dining offers several retail locations where faculty and staff may purchase
meals. Consult their web site for the different locations around the Grounds. UVA Dining also can
provide catering through its Virginia Catering Company for University-sponsored and other events.

4.9 Employee Assistance and Wellness Programs
The Faculty and Employee Assistance Program has been providing comprehensive, onsite employee
assistance services to employees and their families since its inception in 1991. What began as a
program for the University of Virginia in Charlottesville has expanded to include all of UVA plus
many of the area’s employers as well. The program’s mission is to assist organizations to maximize
employee productivity and to help employees identify and resolve personal concerns that may affect
job performance. The program offers individualized, confidential assessments based on clinically-
sound standards, brief counseling, and appropriate community referrals as necessary. In addition, the
program provides consultation to supervisors and managers to assist in addressing employee/team
challenges.

University Human Resources also offers the Hoo’s Well program. Created in partnership with the
University’s health insurance provider, Aetna, this voluntary program is designed to help faculty
members get healthy and stay healthy by improving their general fitness and reducing their risk for
heart disease, cancer, diabetes, and other debilitating illnesses. Hoo’s Well includes programs to help
individuals lose weight, improve their diet and nutrition, quit smoking, manage stress, and enhance
their general health.

All Academic Division and Medical Center employees and their spouses currently covered by the
UVA Health Plan are eligible to participate in Hoo’s Well.

4.10 Housing Facilities
The Pavilions on the University’s historic Lawn are residences for senior administrators and faculty
members whose eligibility has been established by the Board of Visitors. The following is the
sequence of priority when a vacancy occurs: the executive vice president and provost, the vice
president and chief student affairs officer, the academic deans in the order in which their schools
were established, and then members of the faculty, subject to the conditions of the policy of the
Board of Visitors. The uses of other buildings in the historic district, such as Montebello, Lower
Mews, the Pavilion VII apartments, and Hotel D, are assigned by the Board of Visitors.

Pavilion VIII has both classroom and residential space. The Office of the University Registrar
allocates the use of its classrooms. The Pavilion VIII Committee invites the faculty to apply for the
residential space, reviews applications, and makes a recommendation to the provost on the use of
the residences; the provost, in turn, makes a recommendation to the Board of Visitors for their
action on assignment. The assignment of faculty to Morea and to one of two apartments on the
Mews also is managed by the Provost’s Office. The three apartments in the Monroe Hill Residential
College are assigned by the Monroe Hill Residential Committee. Hereford College has one principal’s residence and three other apartments, which are assigned in a similar manner.

Faculty members can apply for University-owned rental housing through the University Housing Office. Tenure-track assistant professors, lecturers, and instructors receive first priority for assignments. Housing in the Piedmont Faculty Housing area is available to non-tenured faculty members, research associates, and visiting faculty members. Housing for all other areas (other than residences located in the historic district and others specified above) is available for assignment to faculty and staff.

The Off-Grounds Housing Office provides comprehensive lists of rooms, apartments, and houses to rent, as well as a directory of all local apartment complexes. The lists are updated monthly; the directory is published annually. Faculty members who have properties to rent can list them through this office. A model lease to be used as a rental contract is available.

4.11 University Identification Cards

Full-time and part-time employees of the University receiving employee benefits may receive a University identification card. There is no fee charged for the initial ID card. Other employees and visitors might be eligible for an ID card for a fee. The University ID Card Office is located in the lower level of Observatory Hill Dining Hall, on the corner of Alderman and McCormick Roads. Meter parking is available in front of the building, on McCormick Road. Office hours are from 8:00 a.m. until 5:00 p.m., Monday through Friday. Phone 434-924-4508, fax 434-982-5173, or e-mail UVaid@virginia.edu.

ID Cards issued to employees and individuals affiliated with the University of Virginia must be returned to the University ID Card Office upon separation. ID Cards issued to persons participating in special programs sponsored by the University must be returned to the University ID Card Office upon completion of the program.

Lost, damaged, or stolen ID cards will be replaced at the University ID Card Office and a fee will be charged. University ID cards will also be replaced because of malfunction, a change of name, or because of expiration at no charge provided that the old card is returned. Additional information is available on the ID Card Office website.

4.12 Parking and Transportation

The Department of Parking and Transportation enforces the University’s parking regulations, sells parking passes to faculty and staff members, monitors parking areas, assesses fines and penalties, and may revoke parking privileges. The first citation in every twelve-month period is a warning with the exception of those issued for handicapped space or fire lane violations. To insure the citation is a warning, call 924-7231.

Parking is difficult on or near the central Grounds of the University. Visitors to the University may use the Central Grounds Parking Garage on Emmet Street, the Ivy Road Parking Garage, the Culbreth Road Garage, or the Medical Center Parking Garage off of Jefferson Park Avenue or metered parking areas, as well as various departmental sponsored areas throughout the Grounds.

Faculty and staff members may purchase parking permits of various types for reserved lots and large commuter lots which are serviced by the University Transit Service (UTS), also administered by Parking and Transportation. Obtaining a space in a particular lot depends upon when space
becomes available and when the name of the faculty or staff member was placed on the waiting list. UTS provides transportation to all major areas of the University and also serves many off-Grounds residential areas.

In some cases, parking areas may be reserved after the normal hours of 7:30 a.m. to 5:00 p.m. for cultural events, weddings, and meetings by contacting Parking and Transportation. Such areas are posted during the reserved periods. On any day of a home football game, areas around Scott Stadium are reserved and no parking is permitted after 1:00 a.m.; similar policies apply to certain parking areas in and around the John Paul Jones Arena when events are scheduled to take place there.

University of Virginia students, faculty, and staff can ride the Charlottesville Area Transit (CAT) for free with a valid UVA ID. This program, funded by the University of Virginia, makes it easier for the UVA community to get around Charlottesville and reduces traffic and pollution. Visit the Charlottesville Area Transit website to find information on routes and to use their Bus Tracking system to retrieve bus arrival time predictions.

4.13 Recreational Activities

The Intramural-Recreational Sports Department (IM-REC) has six recreation facilities that contain fitness rooms with cardiovascular and strength training equipment, full-court gymnasiums, racquetball and squash courts, locker rooms, multipurpose rooms, indoor pools, indoor running tracks, showers, and lockers. Outdoor tennis courts and playing fields are also available. IM-REC offers many exciting programs for faculty members and their families. The department also offers competitive intramural sport leagues and tournaments, recreational and fitness classes for adults and youth, a summer day camp for children, and outdoor recreation trips and workshops. An outdoor equipment rental center provides general camping and boating equipment as well as outdoor recreation resource materials.

Faculty and staff members who are eligible for University benefits will be able to sponsor one adult (18 years or older) who resides in the same household for a University Recreation membership. Full-time faculty and classified staff receive a membership discount as part of their benefit package. Payroll deduction is available.

The Department of Athletics offers a wide variety of both men’s and women’s sporting activities for the University community. Admission is charged for access to most events. A limited number of reduced season-rate tickets are available to the faculty for basketball and football.

4.14 Safety and Security

The University of Virginia strives to maintain a safe and secure environment for students, faculty, staff, and the general public. The University Police Department is a professional, full-service department providing all of the services normally provided by local municipal police, plus many services unique to an academic institution. The University Police have jurisdiction by statute over University property and adjacent streets and sidewalks. Through an agreement with the Charlottesville Police Department, the University Police Department has concurrent jurisdiction in the community surrounding the University.

The University Police also have responsibility for enforcing University rules and regulations and work cooperatively with local, state, and federal law enforcement officials. Crime prevention
materials ranging from information on drugs to brochures on the prevention of sexual assault are available from the University Police Department. Also, crime prevention personnel are available on request to provide seminars and programs on all types of crime prevention and personal safety issues. All criminal and suspicious activities should be reported to the police through the Emergency Operations Center by calling 911 (9-911 through University telephones).

The University prides itself on being a warm and caring community. Membership in this community means looking out for the safety and well-being of our peers. Our goal is to foster an atmosphere of concern for others so that we can encourage persons who appear to be troubled or distressed to seek help.

If faculty members have concerns about the physical or psychological well-being of a student, it is recommended that they contact either the Office of the Dean of Students or Counseling and Psychological Services (CAPS). During hours when CAPS is closed, professional help is available if needed. After 5:00 p.m. and on weekends, if an emergency should arise that is potentially life threatening, faculty members should contact 911 and appropriate help will be dispatched. If the crisis is non-life threatening but nonetheless requires immediate assistance, faculty members may contact the Student Health after-hours answering service by dialing 972-7004. The CAPS on-call professional will be contacted and he/she will respond by phone within a short period of time.

The Office of Emergency Preparedness develops and communicates the University’s key emergency policies, strategies, plans, and procedures and works closely with departments and offices to design, train, and exercise emergency response plans. The office champions a strong commitment to personal preparedness planning; it educates students, faculty, and staff on mitigation, preparedness, response, and recovery strategies. The office assesses the University’s preparedness for natural, epidemic, and terrorist emergencies while working collaboratively with representatives from the City of Charlottesville, Albemarle County, and other local, regional, state, and federal agencies on emergency planning.

Current emergency information at the University can be accessed on the web.

The University provides the Faculty and Employee Assistance Program (FEAP), a free, confidential resource for faculty, staff, and family members to help address a wide variety of personal and work life issues such as stress, depression, substance abuse, financial issues, grief/loss, anxiety, elder care, legal issues, communication issues, domestic violence, relationship issues, and balancing responsibilities at work and home.

FEAP offers consultation, training, critical incident debriefings, workplace interventions, substance abuse education, and mediation services. Contact FEAP at 434-243-2643 or, for after-hour emergencies, call 1-866-950-0159 to page the on-call counselor.

### 4.15 Libraries

The UVA Library has 13 facilities and also shares its catalog with the Darden, Health Sciences, and Law libraries. In addition to physical buildings and collections, the Library offers digital resources, specialized labs, and other services to help you in your academic work.

VIRGO, the University of Virginia Library’s computerized catalog, provides online access to the library’s holdings through keyword, author, title, subject, and call number searches.
LIBRA serves as UVA’s digital institutional repository. Among other features, Libra allows UVA scholars to make completed versions of their work—such as preprints and published articles—freely available to the general public for non-commercial research, scholarship, teaching and learning, and to store their work in a central, stable location. The repository makes research more visible to a wider audience and helps assure the long-term preservation of UVA scholars’ works. The repository offers a simple interface for uploading publications and is searchable so that UVA publications may be discovered by users from inside or outside the university. Any employee of the University who produces scholarly works may deposit items in Libra. In addition, electronic copies of dissertations and masters’ theses can be added to Libra and made available on a long-term basis as a replacement for paper copies added to the library’s shelves.

The Digital Media Lab in the Robertson Media Center has a team of knowledgeable media professionals available for consultation on projects involving media and technologies. These areas include digital imaging, audiovisual production and post-production, physical interactivity, 2D/3D animation, mobile technologies, as well as visualization and delivery of media content.

At the library’s Scholars Lab, advanced students and researchers across the disciplines partner on digital projects and benefit from expert consultation and teaching. The lab’s highly-trained faculty and staff focus on the digital humanities, geospatial information, and scholarly making and building at the intersection of the digital and physical worlds. The Scholars Lab hosts workshops and a lecture series and supports emerging scholar-practitioners through Graduate Fellowships in Digital Humanities and UVA’s innovative Praxis Program.

4.16 Scholarly Journals

Scholarly journals issued by the University community include the following:

The Hedgehog Review, an interdisciplinary journal of critical reflections on contemporary culture, published three times a year by the Institute for Advanced Studies in Culture.

Iris: A Journal About Women, a biannual magazine for progressive young women that brings together contributions from writers, artists, and university scholars from all over the world.

Meridian, a semiannual literary journal produced at the University of Virginia in conjunction with the university’s M.F.A. Program in Creative Writing.

Studies in Bibliography, a print and electronic journal that presents a wide range of scholarly articles on bibliography and textual criticism.

Virginia Journal of International Law, the oldest continuously-published, student-edited law journal in the United States devoted exclusively to public and private international law.

Virginia Law Review, a professional periodical devoted to law-related issues that can be of use to judges, practitioners, teachers, legislators, students, and others interested in the law.

Virginia Quarterly Review, a quarterly publication that includes poetry, fiction, book reviews, essays, photography, and comics from some of the nation’s most notable writers, photographers, and artists.
4.17 University of Virginia Press
The University of Virginia Press (UVAP) was founded in 1963 to advance the intellectual interests not only of the University of Virginia, but of institutions of higher learning throughout the state. A member of the Association of American University Presses, UVAP currently publishes fifty to sixty new titles annually. New titles are approved by the UVAP Board of Directors after a rigorous process of peer review. The UVAP editorial program focuses primarily on the humanities and social sciences with special concentrations in American history, African-American studies, southern studies, literature, ecocriticism, and regional books. While it continuously pursues new titles, UVAP also maintains a backlist of over 1,000 titles in print. The UVAP welcomes inquiries from University faculty.

4.18 Administrative Services
A large number of activities that support instruction and research are organized under the executive vice president and chief financial officer. Faculty members are encouraged to review and adhere by the policies and procedures maintained by these offices.

- University Budget Office
- ITS Communication Services
- Department of Facilities Management
- Department of Procurement Services and Supplier Diversity
- Office of the Architect
- Office of Property and Liability Risk Management
- University Human Resources

4.19 Institutional Assessment and Studies
The Office of Institutional Assessment and Studies (IAS) conducts institutional research and supports assessment at the University of Virginia. The office provides the University community with data and analysis needed for decision-makers to maintain and improve institutional effectiveness. IAS staff gather, analyze, interpret, and disseminate data, employing the highest professional standards of accuracy, objectivity, and timeliness.

4.20 Printing and Copying Services
University Printing and Copying Services provides printing, copying, microfilming, and related services to faculty, staff, and students of the University.

The Printing Division can produce almost any printed material, from business cards, stationery, forms, and brochures to full-color books and posters. Professional graphic design and desktop publishing services are also available. Orders may be placed through the University’s Messenger Mail using a printing requisition form. Finished orders can be delivered directly to on-Grounds offices.

The Copy Division consists of five copy centers and over one hundred copiers throughout the Grounds. Copying services are available from staffed copy centers on either a cash or departmental charge basis, or on a self-service copier. The division can produce black-and-white or full-color copies and a wide variety of finished duplicating products, including short-run books, newsletters, and customized textbooks. The centers accept digital jobs via email and, in most cases, can deliver
finished copies to on-Grounds offices the next day. CopyCard departmental charge cards are available for copy machine access with direct departmental billing.

University policy requires observance of all applicable copyright laws, and Printing and Copying Services must adhere to this policy. Although there are many situations that allow copying of copyrighted materials for academic use within the limits of what is known as the Fair Use Doctrine, copying beyond Fair Use limits without written permission from the copyright owner is not permitted.

### 4.21 The Office of University Advancement

The University development community consists of professionals and support staff in the Office of University Advancement, in academic units and programs, and in University-related foundations around the Grounds. To ensure University-wide coordination of prospect cultivation and solicitation, the office operates a comprehensive development information system to serve the entire development community. University Advancement Services manages the University’s overall relations with corporate and foundation organizations; structures approaches to individuals for the solicitation of all planned gifts including major outright gifts, life income gifts, and bequests for the benefit of any area of the University; manages the alumni/development computer network system, which provides all automated support for fund-raising and development activities; and performs a variety of functions which enhance the fund-raising capabilities of the University. Learn more about the Campaign for the University of Virginia at their website.

### 4.22 University Mail Service

Mail Services at the University of Virginia handles, distributes, and processes Messenger Mail and U.S. mail at the University. Mail Services also provides mail service information and alerts members of the community about changes in mailing rates, requirements, and regulations.
Chapter Five: University-Related Organizations

5.1 UVA Innovation
UVA Innovation is a not-for-profit corporation that evaluates intellectual property generated in the course of research at UVA, seeks to protect those inventions that show commercial potential, and licenses those rights to industry. UVA Innovation thus serves to promote the entry of UVA technologies into the commercial marketplace, an endeavor that is designed to generate royalty income used to fund additional research at the University.

5.2 University of Virginia Alumni Association
Founded in 1838, the UVA Alumni Association maintains ties to the more than 110,000 living former students of the University. The association encourages financial support for the University from the contributions of alumni, parents, and friends of the University. The University of Virginia Fund receives private support that benefits students, faculty, and many University programs and activities.

5.3 Other University-Related Foundations
University-related foundations were created to enhance the fund-raising capabilities of the University or one or more of the University’s schools or departments, and, in addition to UVA Innovation and the UVA Alumni Association, include: the College Foundation, the Curry School of Education Foundation, the Darden School Foundation, the Virginia Engineering Foundation, the Law School Foundation, the McIntire School of Commerce Foundation, the Medical Alumni Association & Medical School Foundation, the School of Nursing Alumni Association, the Virginia Athletics Foundation, the White Burkett Miller Center Foundation, and others. The relationship between the various foundations and the University is governed by a set of management principles and guidelines in a manner consistent with the University's purpose, mission, policies, and procedures. For more information, see the Board of Visitor's policy on University-related foundations.

5.4 The Jefferson Scholars Program
The Jefferson Scholars Program, begun in 1981, has the goal of supporting outstanding undergraduate and graduate students in residence at the University. The awards are granted on the basis of merit in leadership, scholarship, and citizenship and provide support for four years of undergraduate study and up to five years of graduate study. Selection for Jefferson Scholarships are made by a committee that includes University faculty, administrators, and alumni.

5.5 University of Virginia Community Credit Union
The University of Virginia Community Credit Union provides a variety of financial services to community members of Charlottesville and employees of the University. Services include savings accounts, Christmas clubs, checking accounts, individual retirement accounts (IRAs), certificates of
deposit, personal and automobile loans, mortgage loans, home equity loans, safety deposit boxes, American Express Travelers Cheques, and credit cards.

5.6 The Colonnade Club
The Colonnade Club was founded in 1907 to encourage interaction among members of the faculty of the University and to promote the interests and welfare of the University. To accomplish these purposes, the club offers a variety of social events and other activities throughout the year.

5.7 The University of Virginia Women’s Club
The purpose of the University of Virginia Women’s Club is to promote sociability among its members and to serve the University community. Membership is open both to wives and to women members of the faculty and administrative staff. Wives of visiting faculty and visiting scholars are also eligible for one year. The Women’s Club organizes a series of social events throughout the academic year and members may affiliate with one of several interest groups to pursue a variety of activities. Members are active volunteers at, for example, the University Museum, the Bloodmobile, the Learning Needs and Evaluation Center, and the University’s Medical Center.

5.8 Retired Faculty Activities
Founded in 1991, the Retired Faculty Association holds general membership meetings quarterly, where topics and speakers are attuned to financial affairs, medical problems, travel opportunities, and similar subjects. Dues are $25 per annum and spouses of deceased, retired faculty members also are eligible for membership. The organization can be contacted by phone at (434) 924-3787.

The Osher Lifelong Learning Institute (OLLI) at the University of Virginia offers educational opportunities and intellectual enrichment to active adults in the community. OLLI is member-directed and draws upon its members’ resources, as well as other academic and community resources, to organize courses and other educational activities. In this stimulating environment, members may acquire new knowledge, explore ideas, exercise creativity, and share interests and expertise with others. OLLI classes are held in the daytime, almost always in places with convenient parking. Courses usually last three to six weeks. Current and retired faculty members are invited to join OLLI and/or to teach courses in whatever areas are of interest to them. For many retired faculty members, OLLI is an opportunity to teach outside their discipline on topics that have long interested them. OLLI instructors do not receive compensation but may take classes at OLLI for free for two semesters.
CHAPTER SIX: GUIDE TO NEWS AND EVENTS

6.1 News and Current Events Sources
University Communications maintains a source page on their web site with links to several sources of information regarding goings on at the University.

The Alumni Association publishes the University of Virginia Magazine, which presents an overview of the University. It is published quarterly.

In order to keep people informed about the latest University news, the Media Relations Department of University Communications publishes a daily online web site, UVA Today.

Of the many student publications, The Cavalier Daily receives the widest circulation and contains news and activities of interest to faculty and students.

The Declaration is a weekly news magazine. For more information about student-run publications, clubs, and other organizations, visit the Student Activities Center.

Several telephone numbers are designated to supplement the information available through University web sites and publications: University Information provides listings for faculty and staff at 924-0311; the Student Locator at 924-3363 gives addresses and telephone numbers; the Newcomb Hall information desk at 924-3601; University Programs Council-sponsored events are available on their web site and described in a recording on 92HELLO.

6.2 Guides and Reports
The Manual of the Board of Visitors of the University of Virginia 1998 sets forth the powers and duties of the board and those of the principal administrative officers and is available through the University Press.

The President’s Annual Report, published each December, provides a review of faculty achievements and institutional highlights as well as financial information about the University. Copies of current and past reports are available online.

The Undergraduate and Graduate Records provide a complete listing of undergraduate and graduate courses and a comprehensive directory of regulations.

University Data, issued annually by Institutional Assessment, and Studies, is the repository of institutional statistical information on all aspects of the University, including demographic data on students, faculty, and staff; academic achievement and admissions data for each school; and University-wide financial data.

The UVA Map/Guide to the Grounds is distributed free to visitors at the University Information Center and to University departments for a fee at UVA’s storehouse (982-5392).

The UVA Health System publishes a listing of outpatient, visitor, and community services, including phone numbers, billing procedures, and transportation services in their online Services and Amenities Guide.
