

# Faculty Emeriti 2018-2019

# Faculty Emeriti Retirement Dinner

University of Virginia

May 1, 2019

Welcome to the 2019 dinner for UVA's newest faculty emeriti, where we gather to celebrate our distinguished scholars as they prepare to enter a new phase of their lives. This year we are celebrating the careers of 49 great teachers and researchers from 10 schools and 30 different academic areas, nominated for their exceptional accomplishments. Among these short biographies we see women and men who have written dozens of books, won national awards of distinction, and made thrilling discoveries in their fields of study.

But our retiring faculty members are also musicians, chaplains, outdoor enthusiasts, and poets; political advisors, sports fans, and prolific travelers. Their accomplishments in our classrooms and laboratories were shaped by who they are as individuals—and in their avocations, as well as their academic lives, they have contributed to the life of our community. All of them have great stories to tell.

We hope that you enjoy reading this booklet and that it becomes a keepsake of a memorable evening. Our thanks to our faculty emeriti for all they have done and all they will continue to do for the University of Virginia.

Rector Frank M. Conner III and the Board of Visitors  
President James E. Ryan  
Executive Vice President and Provost Thomas C. Katsouleas

# DR. BENNETT A. ALFORD

**M.D., University of Alabama**

**Professor of Radiology and Medical Imaging**

**School of Medicine 1977 ~ 2019**

Bennett Alford grew up in Alabama and attended the University of Alabama for his undergraduate and medical school education. He completed his residency in diagnostic radiology at the University of Minnesota Hospitals in Minneapolis and fellowships in pediatric radiology at the University of Minnesota Hospitals and Children's Hospital and Clinic - St. Paul. He joined UVA in 1977 as an assistant professor of radiology and pediatrics and became a full professor in 1993.

Alford served as the director of pediatric imaging at UVA from 1977 to 1985 and from 1988 to 2002. He served as a consulting radiologist for St. Jude Children's Research Hospital from 1997 to 2002.

Alford completed a fellowship in musculoskeletal radiology in 2004 and has been working in the Division of Musculoskeletal Imaging at UVA with expertise in both adult and pediatric imaging.

# MR. MICHAEL D. ATCHISON

**M.B.A., Michigan State University**

**Professor of Commerce**

**McIntire School of Commerce 1981 ~ 2019**

Michael Atchison is retiring as a member of the finance faculty at the McIntire School of Commerce. Atchison joined UVA after the completion of his doctorate in 1981. He rose through the ranks to become an esteemed colleague and was promoted to full professor in 1996. Atchison's contributions and recognitions include induction into the Raven Society in 1998 and serving on the Faculty Senate from 2013 to 2018. As Associate Dean for the Undergraduate Program, Atchison led the implementation of McIntire's Integrated Core Curriculum (ICE), which is now a hallmark of the School. Atchison specialized in corporate finance and curriculum development, and he has taught in the areas of corporate finance and general business. His current research is in curriculum development and innovative business education.

Atchison has impacted thousands of students' lives, either directly through his teaching and guidance, or indirectly through his successful administration of one of the top undergraduate business programs in the nation.

# MR. RICHARD B. BARNETT

Ph.D., University of California  
Associate Professor of History  
College of Arts & Sciences 1974 ~ 2019

Richard Barnett, a specialist in medieval and early modern South Asian history, joined the Corcoran Department of History as an assistant professor in 1974 and was promoted to associate professor in 1980. Fluent in Urdu and Hindi, he put his language skills to work in his book, *North India between Empires: Awadh, the Mughals, and the British, 1720-1801* (1980) and in his edited volume, *Rethinking Early Modern India* (2002). He is currently at work on a new book, *South India between Empires, State, Culture and Identity in Hyderabad, 1748-1803*.

A dedicated teacher, Rich has introduced thousands of UVA undergraduates to the intricacies of South Asian history in large introductory lecture courses on classical and medieval India and in targeted lecture classes on women and power in South Asian history. He has taught small seminars on Bangladesh, Pakistan as an Islamic frontier, Afghanistan and Pakistan as sites of insurgency and civil society, and the city of Hyderabad as an example of a post-Mughal synthesis. For the past four years, he has served as the department's Director of Undergraduate Studies.

Barnett's graduate-level teaching includes courses on society and politics in eighteenth century India and the historiography of early modern South Asia. He has previously served as the department's Director of Graduate Admissions and Director of Graduate Studies. His current graduate student, Swati Chawla, will defend her dissertation, entitled "Between Homelessness and Homecoming: Tibetan Nationalism and Citizenship in Late 20th Century India," in time for an August 2019 graduation.

Barnett has served the College and the University as co-director of the Center for South Asian Studies and as UVA's trustee to both the American Institute of Pakistani Studies since 1999 and the American Institute of Afghan Studies since 2005.

# MR. THOMAS S. BATEMAN

**D.B.A., Indiana University**

**Bank of America Professor of Commerce**

**McIntire School of Commerce 2000 ~ 2019**

Thomas Bateman is retiring from the management faculty of the McIntire School of Commerce. Bateman is the Bank of America Professor of Commerce and is a leading expert on adaptive problem solving, leadership, and job stress in organizational contexts.

Bateman's love of research led him to tackle some of the most pressing problems of our time including how to engage business leaders in the fight against climate change. Bateman specialized in organizational behavior and strategic leadership. His most recent journal articles concern leadership in the domain of climate change and mitigative as compared to adaptive, problem solving. Another recent area of expertise concerns the work styles of scientists as they pursue deep contributions to knowledge. His most recent book chapter concerns proactive goals and appears in *Proactivity at Work* (Routledge, 2017). Bateman has taught workshops in North America, Europe, and Asia and recently finished the twelfth edition of his textbook, *Management: Leading & Collaborating in a Competitive World* (McGraw-Hill/Irwin).

In addition to being a true scholar and fabulous teacher, Bateman oversaw many important initiatives for McIntire and UVA, including the development of the pan-University Leadership Minor and, as Management Area Coordinator, the recruitment and mentoring of the next generation of management faculty.

# DR. DANIEL M. BECKER

M.D., Washington University  
Tussi and John Kluge Professor of Palliative Care  
School of Medicine 1985 ~ 2018

Daniel Becker came to UVA as a spousal hire in 1985. When his wife started her neurology residency, Dr. Becker joined the Division of General Medicine in the Department of Medicine. Over the decades, he has worn many hats: division chief, director of the general medicine clinic, director of the general medicine consult service, founding director of the anticoagulation clinic, acting vice chair of the Department of Medicine, medical director of Hospice of the Piedmont, director of the palliative care consult service, founding board member of the Charlottesville Free Clinic, core faculty in the Leadership in Academic Matters cross-Grounds program, and finally, director of the Center for Biomedical Ethics and Humanities.

Early in his career, Becker wrote, received, and directed federal training grants in primary care internal medicine. As a clinical epidemiologist, he was active nationally in the development of treatment and diagnostic guidelines for venous thromboembolism. Becker was one of two inaugural recipients of the Master Clinician award at the Medical Center. The next year, he received the Leonard Tow Humanism in Medicine Award. He received a dean's teaching award at the medical school and joined the inaugural class of the Academy of Distinguished Educators in the School of Medicine. He was also elected to UVA's Society of Fellows.

While continuing his full-time faculty position, he attended the low-residency MFA program in writing at Warren Wilson College and began to write medically-themed poems, short fiction, and creative non-fiction. He has twice been a finalist for the *Nimrod Review's* Pablo Neruda poetry prize.

A few months after retirement, Becker was asked to fill a teaching vacancy in the Foundations of Clinical Medicine class for first and second-year medical students. He also supervises UVA medical students at the Charlottesville Free Clinic and will be seeing patients at the Psychiatry Department's addiction clinic. Becker works individually with internal medicine residents interested in creative writing, and co-directs the Writing Retreat for Health Professionals in Taos, New Mexico.

# MR. THOMAS A. BLOOM

Ph.D., University of Michigan

Associate Professor of Drama

College of Arts & Sciences 1995 ~ 2019

Thomas Bloom served as head of the scenic design program in the Department of Drama from 1995 to 2019 and chair of the department from 2005 to 2015. He earned his doctorate in theatre from the University of Michigan and taught at Calvin College, Occidental College, and the University of Michigan at Flint before coming to UVA.

A designer of over 150 theatrical productions, his work has been seen at the Occidental Summer Drama Festival in Los Angeles, the University of Michigan, Opera Grand Rapids, South Carolina Ballet, and the Hope Summer Repertory Theatre.

At UVA, Bloom created over 70 designs for the Drama Department and the Heritage Repertory Theatre, earning awards in 2006 and 2009 from the Kennedy Center American College Theatre Festival. His 1994 book, *Kenneth Macgowan and the Aesthetic Paradigm for the New Stagecraft in America*, was nominated for the George Freedly Award of the American Library Association.

From 2011 to 2012, Bloom was the principal investigator on the Signature Science: Intelligence Training Installation at the UVA Research Park. A dedicated and highly successful mentor, Bloom has been instrumental in launching the award-winning careers of numerous graduate fine arts students who are now working on Broadway, in Boston, and at universities around the country.

As department chair, Bloom established the path-breaking Dance Program and played a central role in the planning, designing, and construction of the Ruth Caplin Theatre. One of the most consequential arts projects ever accomplished at UVA, the Caplin Theatre has been honored by the United States Institute for Theatre Technology and the Society for College and University Planning.

As an artist, teacher, and administrator, Tom has left a lasting mark on the world of theatre in Charlottesville, at UVA, and across the country.

# MS. M. KATE BURKE

M.F.A., Ohio University

Associate Professor of Drama

College of Arts & Sciences 1993 ~ 2019

Kate Burke directed the voice and speech program in the Department of Drama from 1993 until 2019, teaching the voice and spoken word courses for the M.F.A. Acting program and B.A. Drama program, and serving as resident vocal coach for the department's mainstage productions.

Recipient of the M.F.A. in Acting from the Ohio University Professional Actor Training Program, she worked on vocal pedagogy with the Royal Shakespeare Company and has devoted her research and teaching to—in her words—“methods of encountering and voicing great sacred and secular texts, and the pedagogy of theatre voice and speech.” Through her mentorship of M.F.A. acting students, as well as innovative undergraduate courses such as “Voice for the Theatre” and “Speaking in Public,” Burke has promoted a transformative understanding of voice. Beyond the University, she has led workshops in the spoken word for theatre companies, conferences, medical schools and women’s groups, and has coached news anchors and clergy.

Burke is the creator of *New Lectio Divina*, a curriculum for secular and interfaith settings exploring the impassioned recitation of the Bible, Shakespeare, and other great texts. In 2014 her workshop on “Voice and Verbal Assertiveness” concluded the Rome UNESCO conference on “Performing Gender and Violence in Contemporary National and Transnational Contexts.”

A member of the Actor’s Equity Association, Burke’s acting career includes television, radio, and professional theatres across the country including the Portland (Maine) Stage Company, American Conservatory Theatre, American Repertory Theatre, Iowa Playwrights Festival, Heritage Repertory Theatre, Virginia Repertory Theatre, Mill Mountain Theatre/Hollins Playwrights Festival, Barksdale Theatre, New Harmony Summer Repertory Theatre, Porthouse Theatre, Nebraska Repertory Theatre, Spokane Interplayers Ensemble, and Fort Worth Shakespeare in the Park. She also directed productions at UVA, including Heather Raffo’s *Nine Parts of Desire* in 2014, and her vocal coaching credits encompass productions at other university theatre programs as well as the Tyrone Guthrie Theatre (Minneapolis), American Players Theatre (Spring Green, WI), San Diego’s Old Globe Theatre, Fort Worth Shakespeare in the Park, and the Seattle Repertory Theatre.

# MS. ELLEN L. CONTINI-MORAVA

Ph.D., Columbia University

Professor of Anthropology

College of Arts & Sciences 1981 ~ 2019

Ellen Contini-Morava received her doctorate in linguistics from Columbia University in 1983 having already joined the Department of Anthropology at UVA as an assistant professor in 1981. In 1987, Contini-Morava became the first woman to be granted tenure in UVA's Anthropology Department. In 2001, she became the first woman to become chair of the Department, and in 2006, the first woman to reach the rank of full professor in the Department of Anthropology at UVA.

In addition to her many contributions to Anthropology, Contini-Morava's career at UVA has been characterized by an great number of interdisciplinary contributions and collaborations. It is noteworthy that leaders in each one of these programs feel that their endeavors depended to a

great extent on her dedication and commitment.

She has been an indispensable presence at the Carter G. Woodson Institute for African and African-American Studies, serving on multiple committees and bringing wise and judicious counsel to deliberations. She has been a lynchpin contributor to the interdisciplinary program in linguistics, tirelessly advocating for the perspective of linguistics as a discipline and offering courses that have been essential to the success and growth of the program. In 2012, as interim director of the Linguistics Program, she was involved in founding the University's Teaching English as a Second Language Certificate program. She has also promoted the teaching of Swahili and other less commonly taught languages at UVA. During the late 1990s, she helped to establish the American Sign Language (ASL) program, and was instrumental in ensuring that ASL would count toward the College's foreign language requirement. Most recently, she has become involved in the analysis of indigenous American languages.

Friends and colleagues all over UVA have been touched by Ellen's work and wish her well in her retirement.

# MR. DONALD G. CRABB

Ph.D., University of Southampton, UK

Research Professor of Physics

College of Arts & Sciences 1990 ~ 2018

Donald Crabb received his doctoral degree in high energy particle physics from the University of Southampton in 1967. He came to UVA in 1990 after various positions at the University of Southampton, the University of Michigan, St. Louis University, and Oxford University. During his research career in particle physics at Rutherford Laboratory, Argonne National Lab, CERN, Brookhaven National Lab, SLAC and the Jefferson Lab, he built polarized targets for studying spin effects in particle physics.

His time at UVA has been devoted to building up the Polarized Target Lab in the Physics Department while participating in experiments at various accelerators in the United States and Europe. These included highly-cited experiments at SLAC, for which he built the target, and at CERN (SMC), which showed that the quark contribution to the spin of the proton was only about 25 percent of the value, which is known as the “proton spin crisis.”

Crabb was named an American Physical Society Fellow in 2009 for his contributions to the use of high field polarized targets and the development of high polarization and radiation resistant polarized target materials. He was honored for his role in using these materials in seminal particle physics experiments and advancing knowledge of the behavior in high intensity beams.

# MR. JEFF R. CRANDALL

**Ph.D., University of Virginia**

**Neal and Nancy Wade Professor in Engineering & Applied Science**

**School of Engineering & Applied Science 1994 ~ 2019**

Jeff Crandall received his bachelor's degree in engineering science from Dartmouth College and his doctorate in mechanical, aerospace, and nuclear engineering from UVA. He has served as the Director of the UVA Center for Applied Biomechanics for 25 years. Under his leadership, the Center grew into the premier injury biomechanics program in the world.

Crandall's research has focused on understanding human response and preventing injury with applications in automobile safety, sports, and military protection. He has developed crash tests, restraint systems, and computational models that have impacted government safety policies and the global design of vehicles. He has authored more than 600 peer-reviewed papers in the field of injury biomechanics.

Crandall is a Fellow of the Society of Automotive Engineers and the Association for the Advancement of Automotive Medicine (AAAM), and a past-president of the AAAM and the International Research Council on Biomechanics of Injury (IRCOBI). He has received the United States Government Award for Engineering Excellence and UVA School of Engineering and Applied Science Outstanding Faculty Member Award.

In addition to his teaching and research at the University, he has consulted regularly for car companies, restraint manufacturers, governments, and technology companies. Crandall currently chairs the National Football League (NFL) Engineering Committee and is a member of the NASCAR Head and Neck Restraint Committee. Although he is retiring from the University, he will remain active in the field of injury prevention as leader of a multi-year initiative to reduce concussions in the NFL.

# MR. JOHN J. DORNING

Ph.D., Columbia University

Whitney Stone Professor of Nuclear Engineering  
School of Engineering & Applied Science 1984 ~ 2019

John Dorning received his bachelor's degree in 1959 from the U.S. Merchant Marine Academy and began his career as a marine engineer, first in the U.S. Navy and then in the United States Merchant Marine. He subsequently entered Columbia University, receiving a master's degree in 1963 and a doctoral degree in 1967 in nuclear science and engineering. After three years as a research scientist and group leader at Brookhaven National Laboratory, he joined the nuclear engineering faculty at the University of Illinois, where he worked from 1970 to 1984 with considerable time spent in Italy and France conducting research in reactor physics.

In 1984, Dorning joined UVA as the Whitney Stone Professor of Nuclear Engineering and Engineering Physics and as a member of the Advanced Studies Institute. He was named professor of Applied Mathematics in 1991. Prior to and during his tenure at UVA, he received numerous national and international awards and honors for his theoretical and computational research related to nuclear sciences and plasma physics.

Dorning has served on numerous scientific advisory committees for laboratories in the United States, France, and Italy and regularly delivered the annual lecture on reactor kinetics and reactor dynamics at the International Advanced Postgraduate School of the National Institute for Nuclear Science and Technology in France. In recognition of his outstanding work, he was named a member of the National Academy of Engineering in 2007.

Dorning has over 240 publications, was the Editor-in-Chief for *Transport Theory and Statistical Physics* for 15 years, and served on editorial boards at a number of other journals. He received the 1988 ASEE Glenn Murphy Award in recognition of his notable professional contributions to teaching and the 1988 ANS Arthur Holly Compton Award in Education for outstanding contributions to education in nuclear science and engineering. He is an exceptional academic researcher who has had a great impact on mathematical and computational physics contributing to the field of nuclear sciences and engineering.

# MR. PAUL W. FARRIS

**M.B.A., University of Washington**

**Landmark Communications Professor of Business Administration**

**Darden School of Business Administration 1980 ~ 2019**

Paul Farris' first marketing job was in Hamburg, Germany, where he served as a brand manager for the world's largest margarine brand. The practical application of the craft of marketing, particularly the study of marketing productivity and measurement, informed decades of his research, case writing, and instruction, including more than 10 books and 70 articles.

Since joining Darden from Harvard in 1980, Farris has taught throughout the Business Administration program and led Executive Education programs for numerous international companies. Teaching senior leaders through the initial internet boom of the mid-1990s, Farris was able to ensure the Darden marketing faculty remained abreast of the new medium at a critical time.

In his retirement, Farris plans to move closer to his family and is also putting the finishing touches on another book, a volume on the state of distribution channels.

# MS. DOROTHY K. FONTAINE

**Ph.D., The Catholic University of America  
Sadie Heath Cabaniss Professor of Nursing  
School of Nursing 2008 ~ 2020**

Dorothy Fontaine has been a critical care and trauma nurse for four decades, during which she has championed healthy work environments, interprofessional learning, compassion, resilience, mindfulness, diversity, and inclusion. She was hired by UVA in 2008 as the Sadie Heath Cabaniss Professor of Nursing and Dean of the School of Nursing.

Founder of the School of Nursing's signature Compassionate Care Initiative (CCI) in 2009, Fontaine has delivered more than 200 lectures around the world on the importance of teaching resilience practices to students and clinicians, diversity in nursing, and the cultivation and maintenance of healthy work environments.

During her tenure, the School of Nursing garnered more than \$35 million in grants, raised more than \$55 million in philanthropic support, established several new degrees and degree pathways, and attracted nursing's top talent to UVA. Today, six key regional and national nursing organization presidents and immediate past-presidents make the UVA School of Nursing their academic home. The Clinical Nurse Leader (CNL) program—ranked second in the nation in 2019 by U.S. News—has tripled in size. Applications to the psychiatric mental health nursing master's program have tripled over the last year. The incoming Bachelor of Nursing Science (BSN) class of 2022 set a new record level of interest again in 2019, with 1,355 applications for just 67 spots.

Among her many accolades, in 2019, Fontaine accepted Sigma Nursing's first-ever Healthy Work Environment Award on behalf of the School, and in May 2019, will receive AACN's Visionary Pioneer Award. A member of UVA's Raven Honor Society and a 7 Society honoree, she received UVA Health System's Martin Luther King, Jr. Award in 2015 and the Gordon F. Rainey, Jr. Award at UVA's 188th final exercises in 2017. Fontaine is also deeply embedded in the Greater Charlottesville community, serving as a board member for the United Way, Program for All-Inclusive Care for the Elderly (PACE), and Hospice of the Piedmont.

A Pavilion IX resident with husband Barry since 2011, Dorrie is beloved for opening her home and gardens to countless students, parents, alumni, faculty, staff, clinicians, and others with her signature warmth.

# MR. JAMES R. FREELAND

**Ph.D., Georgia Institute of Technology**

**Sponsors Professor of Business Administration**

**Darden School of Business Administration 1979 ~ 2019**

James Freeland joined the teaching faculty in 1979. He leaves an enormous legacy at Darden – in the classroom, in the faculty office building, and on the area’s softball and baseball diamonds. As senior associate dean for faculty and research for nearly 20 years, Freeland hired more than 60 faculty members, diversifying faculty ranks, bolstering the School’s reputation for attracting the top teaching faculty, and strengthening research quality and productivity.

Despite his formal training in operations, Freeland’s natural curiosity has spawned much collaborative scholarship. His seminar, “Economic Inequality and Social Mobility,” won the 2017 Ideas Worth Teaching Award from the Aspen Institute Business & Society Program.

No mention of Freeland can be made without noting his passion for UVA sports, particularly baseball. In addition to serving as a long-time assistant coach for the Western Albemarle High School baseball team, Jim has played on winning teams in multiple national tournaments including the Men’s Senior Baseball World Series.

# MS. MARY E. GIBSON

Ph.D., University of Pennsylvania

Associate Professor of Nursing, General Faculty  
School of Nursing 1997 ~ 2002 and 2007 ~ 2019

Mary Gibson is a nurse historian and an obstetrics and public health nurse who, prior to joining the faculty in 1997, worked in labor and delivery and outpatient obstetrics at the UVA Medical Center and in the local community.

At the School of Nursing, Gibson served on numerous doctoral committees for students who focused their scholarship on nursing history. She has also served on Doctor of Nursing Practice committees relating to public health and obstetrics. She has loved teaching the obstetrics course most of all—watching students recognize the monumental changes that come with childbirth and mentoring them to provide compassionate care to women and their families. For the past four years, Gibson taught a History of Medicine class to fourth-year School of Medicine students, an elective she will continue to teach following her retirement.

Throughout her career, Gibson regularly presented her scholarship at national and international healthcare history conferences. As assistant then associate director of UVA School of Nursing's Eleanor Bjoring Center for Nursing Historical Inquiry, Gibson successfully secured funding for digitization projects.

Gibson served as chair and assistant chair of the School's Family Community Mental Health Systems Department for a total of eight years, was a two-term faculty senator, and chaired the school's Faculty Organization. Gibson served as chapter and Virginia section chair of the Association of Women's Health, Obstetric and Neonatal Nurses (AWHONN); as president of the Beta Kappa Chapter of Sigma Theta Tau; as a long-time volunteer, board member, and chair of the Jefferson Area Children's Health Improvement Program (ChiP); and as president of the American Association for the History of Nursing (2016-2018).w

Mary's husband, Bob Gibson, is the Lockhart B. McGuire Chair in Internal Medicine Emeritus and continues to practice cardiology part-time at UVA. The Gibsons plan to travel, enjoy time with their children and grandchild, and pursue historical scholarship.

# DR. LEIGH B. GROSSMAN

**M.D., University of Pennsylvania  
Medical Alumni Professor of Pediatrics  
School of Medicine 1981 ~ 2018**

Leigh Grossman completed her Pediatric Residency and Infectious Disease and Critical Care Fellowships at UVA. She is the former vice provost for International Affairs at UVA and Head of the Division of Pediatric Infectious Disease. She retires as the Medical Alumni Professor of Pediatrics and associate dean for International Programs in the School of Medicine. Her clinical work at UVA has been devoted to the care of hospitalized children, both as a general pediatric inpatient ward attending and as an infectious disease consultant. Her research is devoted to the prevention of hospital acquired infection in the critically ill newborn and child.

Grossman has edited and authored five books: *Infection Control for the Pediatric Patient*, *Infection Control in the Preschool and Day Care Center*, *Infection Control for the Healthcare Worker*, *The Medical Student's Guide to Successful Residency Matching*, and *The Parent's Survival Guide to Daycare Infections*, which was released in October 2016.

Grossman's extensive international experience includes growing up in India, service with the Peace Corps, consultancies for the Pan American Health Organization in Washington, D.C. and Chile, Project Hope, and the King Faisal Hospital in Saudi Arabia. She participated in 18 annual medical service weeks in Haiti. Grossman directed the Pediatric International Electives for over 30 years with sites in India, Thailand, Kenya, Cambodia, Costa Rica, Peru, Ecuador, Morocco, Guatemala, India, Vietnam, and Myanmar.

Grossman's service has been honored with the McLemore Birdsong Award for Excellence in Teaching, the Virginia State Council of Higher Education Outstanding Faculty Award for Excellence in Teaching, the Medical College of Pennsylvania Alumni Achievement Award, the Department of Pediatrics Clinical Excellence Award, and the Arnold P. Gold Foundation Humanism in Medicine Award. In October 2017, she received the Medical Society of Virginia International Service Award.

# MR. YACOV Y. HAIMES

Ph.D., University of California

Lawrence R. Quarles Professor of Engineering & Applied Science

School of Engineering & Applied Science 1987 ~ 2019

Yacov Haimes is the Founding Director of the Center for Risk Management of Engineering Systems at UVA. In 2015, he was appointed by the Secretary of the Department of Homeland Security to a three-year term on the Homeland Security Science and Technology Advisory Committee.

Haimes is a Fellow of seven societies: ASCE, IEEE, INCOSE, AWRA, IWRA, AAAS, and the Society for Risk Analysis (SRA), of which he is a past President. He is a member of Rotary International, the Raven Society, and the Tau Beta Pi and Sigma Xi honor societies. The Fourth Edition of Haimes' most recent book, *Risk Modeling, Assessment, and Management*, was published in 2016 by Wiley & Sons. He signed a contract with Wiley to write a new textbook, *Modeling and Managing Interdependent Complex Systems of Systems*, with publication scheduled for 2019.

Haimes is the recipient of the 2014 UCLA Civil and Environmental Engineering Department Distinguished Alumnus Award; the 2014 ASCE American Academy of Water Resources Engineers Founders Award; the 2010 Distinguished Educator Award, presented by SRA; the 2007 Icko Iben Award, presented by AWRA; the 2001 Norbert Weiner Award, presented by IEEE-SMC; the 2000 Distinguished Achievement Award, presented by SRA; the 1997 Warren A. Hall Medal, the highest award presented by the Universities Council on Water Resources; the 1995 Georg Cantor Award, presented by the International Society on Multiple Criteria Decision Making; and the 1994 Outstanding Contribution Award, presented by the IEEE-SMC. Following Hurricane Katrina, he was appointed as the 2007 Arthur Maass-Gilbert White Fellow for the U.S. Army Corps of Engineers, Institute for Water Resources (IWR).

Haimes is a registered Professional Engineer in Ohio and Virginia, Diplomate and founding trustee of the American Academy of Water Resources Engineers, and the past engineering area editor of *Risk Analysis: An International Journal*. He has authored and co-authored six books and 300 technical publications, over 200 of which were published in archival-refereed journals. He has served as a dissertation or thesis advisor to 39 doctoral, 85 master's, and 132 bachelor's students.

# MS. LYNN A. HAMILTON

**M.B.A., Southern Methodist University  
Professor of Commerce, General Faculty  
McIntire School of Commerce 1998 ~ 2019**

Lynn Hamilton is recognized as a leading thinker on business education in the United States, and was invited to present or lead discussions on business communication at the National Undergraduate Business Symposium and the invitation-only Management Communication Association. She is also an intellectual gatekeeper, serving on the editorial review board of *Business and Professional Communication*, one of the leading business communication journals. Hamilton is co-author with Mary Munter of *Guide to Managerial Communication*, currently in its tenth edition.

In 2014, Hamilton was the guest co-editor of a communication-themed issue of *Accounting Education: An International Journal*. She has been a visiting faculty member at the Danish Institute for Study Abroad in Copenhagen, Denmark.

Hamilton teaches management communication, specifically communication strategy, public relations, business writing, and presentation skills. Her interests include media relations, communication risk, leadership communication, and corporate and professional storytelling. Twenty years ago, she was instrumental in developing the School's integrated undergraduate curriculum (ICE), which substantially contributed to McIntire's reputation as one of the preeminent business schools in the nation.

Hamilton served on the Undergraduate Policy Committee for 15 years. She helped launch the University-wide initiative on undergraduate writing competency and assessment. Recently, she spearheaded the development of the new Master's in Global Commerce Program, shepherding the program through the approval process at the School, University, and State (SCHEV) levels. This program will undoubtedly further solidify McIntire's reputation as a leader in global business education.

# MS. REBECCA B. HARMON

Ph.D., University of Virginia

Associate Professor of Nursing, General Faculty

School of Nursing 1993 ~ 2018

Rebecca Harmon taught psychiatric mental health nursing topics to undergraduate and graduate nursing students since arriving as an instructor at UVA School of Nursing in 1993. Early in her career, she practiced nursing across a variety of environments—including emergency rooms and medical-surgical units, as an American Red Cross volunteer, and as a labor and delivery nurse. Mental health nursing became her specialty after she began working at Western State Hospital in Staunton, Virginia in 1987. Following work as a staff development coordinator at Charter Westbrook Psychiatric Hospital in Richmond, VA, Harmon returned to Western State in 1993, the same year she began teaching at UVA and coordinating the psychiatric-mental health clinical rotations for UVA nursing students.

Harmon has been feted often for her teaching prowess. She received the School's Jeanette Lancaster Faculty Excellence Award seven times (2008 to 2014); the UVA Innovative Teaching Award three times (2004 to 2006); UVA Alumni Association's Excellence in Teaching Award in 2011; and was celebrated by the Virginia Nurses Association in 1998 with its Service Award. She was lauded for her work by Sigma Theta Tau International in 1992 and 2003.

A member of the American Nurses Association, the Virginia Nurses Association, the American Psychiatric Nurses Association, and Sigma Theta Tau International, Harmon compiled a series of oral histories of psychiatric nurses at UVA from the 1940s to the 1960s. As an academic, she published regularly on issues related to mental health, psychosis, substance abuse, and appreciative inquiry. She served on the APNA's Continuing Education Committee and was a reviewer for a number of peer-reviewed scholarly journals including the *Journal of Holistic Nursing*, *The Journal of American Psychiatric Nurses*, and *Issues in Mental Health Nursing*. Harmon served as part of the American Academy of Nursing's Psychiatric Mental Health Competencies Taskforce to develop curricular requirements for new nurses.

# MR. LLOYD R. HARRIOTT

Ph.D., State University of New York

Virginia Microelectronics Consortium Professor of Engineering

School of Engineering & Applied Science 2001 ~ 2019

Lloyd Harriott received his doctorate in physics from the State University of New York at Binghamton in 1980 and joined Bell Laboratories that same year. At Bell Laboratories, he was Director of Advanced Lithography Research in the Physical Sciences Research Division. He joined the ECE department at UVA in 2001 and was appointed department chair in 2003 and served in that capacity until 2012.

Harriott also served as the Associate Chair for Undergraduate Programs in the ECE department and as Associate Dean for Undergraduate Education in the School of Engineering and Applied Science. His research interests include nanofabrication, advanced lithography, and nanoelectronic devices. In recent years, his interests turned towards molecular electronics engineering, thermal interfaces, phase

transition switches, and high efficiency photovoltaics.

Harriott has published 125 papers and contributed to a major ECE curriculum redesign that led to the ECE FUNdamentals series of courses. He was never afraid to teach something new. When his interests turned to photovoltaics, he taught himself power systems engineering and then taught the undergraduate power systems course.

Lloyd is passionate about music and is an electric guitarist for the local 1970s style rock band Second Opinion (also known as the Rockin' Docs at UVA), and even made his own acoustic guitar from scratch, which he proudly played at the ECE department retreat this past January.

# DR. BRUCE J. HILLMAN

**M.D., University of Rochester**

**Professor of Radiology and Medical Imaging**

**School of Medicine 1991 ~ 2019**

Bruce Hillman's research interests include health services research and policy, technology assessment, and clinical trials. These specialties derive from his training as a Pew Health Policy Fellow at the RAND Corporation. He was the first to demonstrate that physician self-referral for diagnostic imaging was associated with higher utilization and costs. The work was cited as a reason for new federal and state laws limiting self-referral.

Later work elucidated the factors promoting successful radiology research careers, which led to several ongoing research development programs. He founded and served as primary investigator for the NCI-funded clinical trials cooperative group, ACRIN, which received nearly \$200 million in funding and was responsible for nearly 30 multi-center trials. His nine years as Network Chair included major screening trials of CT lung cancer screening, digital mammography, and CT colonoscopy.

Hillman is currently Founder and Chief Scientific Officer of ACR Image Metrix, an imaging contract research organization owned by the American College of Radiology, which designs and conducts clinical trials of imaging devices, radiopharmaceuticals, and pharmaceuticals.

# MS. PATRICIA J. HOLLEN

**Ph.D., University of Rochester**

**Malvina Yuille Boyd Professor of Oncology Nursing**

**School of Nursing 2002 ~ 2019**

Patricia Hollen received her Bachelor of Nursing Science degree at UVA and became one of the first Nurse Practitioners educated at the University. She has taught in the School of Nursing's doctoral program for 17 years after teaching at the University of Rochester and Northeastern University in Boston. She has served as a mentor, concentrating on three research areas: decision making and decision aids, health-related quality of life, and instrumentation.

Hollen's decision-making research dates from her dissertation involving the development of two quality decision-making instruments for adolescents. This research grew to multi-institutional studies concerning adolescents who are survivors of pediatric cancers. She has created decision aids for adolescents, adults, and their support persons.

Her research developed the Decision Keys instruments, which are an interactive series of decision balance sheets for cancer patients to use with their treatment team.

For measurement of quality of life, she has been one of the primary developers of the Lung Cancer Symptom Scale, the first lung cancer-specific quality of life instrument. It is now used in more than 50 translations, and is available as an enhanced electronic delivery format incorporated onto a tablet. This model has been extended to measures for all advanced cancers.

Hollen has been privileged to work with several national and international organizations. With the American Academy of Nursing, she has served on the Health Behavior Expert Panel and with its efforts for the Tobacco Control Subgroup. She has had multiple roles with the International Association for the Study of Lung Cancer including as the first chair for the Nursing and Allied Health Professional committee.

Hollen's recognitions include Distinguished Professor and Distinguished Alumni awards from the UVA School of Nursing Alumni Association; Outstanding Faculty Mentor Award, UVA School of Nursing; Inaugural Committee Chair Award, International Association for the Study of Lung Cancer; Fellow, American Academy of Nursing; and a Writing Award from the Association of Pediatric Hematology/Oncology Nurses.

# MS. MARCIA A. INVERNIZZI

Ph.D., University of Virginia

Edmund H. Henderson Professor of Education

Curry School of Education and Human Development 1984 ~ 2018

Marcia Invernizzi has been a highly valued member of the Curry School of Education and Human Development faculty as an educator, researcher, leader, and innovator.

In 2013, Invernizzi became the first person at the Curry School to receive UVA's prestigious Edlich-Henderson Innovator of the Year award for her creation of the Phonological Awareness Literacy Screening, or PALS. PALS is a collection of assessments and teaching tools to improve children's literacy that are used in six countries and in all 50 states. As principal investigator of the PALS program, she has overseen the development of PALS Pre-K, PALS K, PALS 1-3, PALS 4-8, and PALS español. In 2014, she was recognized as a "Founding Cville" honoree by the TomTom Founders

Festival, honoring her work as a Charlottesvillean in making a national, local, and global impact. That same year, the *Virginia Lawyers Weekly* named her among the most Influential Women of Virginia.

Invernizzi is a co-founder of Book Buddies, a nationally recognized one-on-one reading intervention for students who struggle with learning to read including those with dyslexia. Her research interests continue to revolve around evidence-based practices for early intervention and assessment in early language and literacy learning.

Invernizzi has served as the principal investigator for several other large-scale research efforts funded by the Institute of Educational Sciences (IES), the Spencer Foundation, and the Commonwealth of Virginia. She was the executive director of the McGuffey Reading Center, the oldest continuously operating University-based reading center in the United States. She taught courses and advised graduate students in reading education for the Department of Curriculum, Instruction, and Special Education.

Invernizzi was awarded an honorary Doctorate of Letters from Washington College. She is the author of dozens of publications including books, book chapters, research papers, and practitioner articles. Among her many honors, she was named one of the Top 100 Innovators "From Academic Research to Real World Applications" in 2008.

# MS. JANINE C. JAGGER

**Ph.D., University of Virginia**  
**Professor of Research in Medicine**  
**School of Medicine 1978 ~ 2018**

Janine Jagger has a Master's of Public Health from the University of Pittsburgh and a doctorate in Research and Epidemiology from UVA. Her career highlights include: research of neurologic risk factors associated with multiple births conducted at Hôpital Port Royal, Neonatal Division, Paris, France; the first epidemiologic study of Tourette's Syndrome as an Associate in Research at Yale University; the measurement of neurologic status in traumatic brain injury and subarachnoid hemorrhage patients at UVA; the prevention of central nervous system injuries; and the implementation of policies to require airbags in passenger vehicles and age restrictions for off-road vehicle operators.

Jagger founded and directed the International Health Care Worker Safety Center at UVA, was awarded an endowed professorship, and named a Commonwealth of Virginia Eminent Scholar. She inspired and informed a new generation of safety-engineered medical devices designed to reduce occupational transmission of bloodborne pathogens. She and her colleagues were awarded five U.S. patents on seven medical devices incorporating protective design features.

The surveillance methods she introduced to hospitals documented the impact of the new safety-engineered devices and culminated in the U.S. Needlestick Safety and Prevention Act of 2000, signed into national law by President Clinton. In 2002, Jagger was named a Mac Arthur fellow for her groundbreaking work. Jagger has shaped national policy; testifying multiple times before the U.S. Congress and federal agencies including the FDA, OSHA, NIOSH, and the CDC.

In 2006, Jagger was diagnosed with familial Mediterranean fever. Drawing on her multiple roles as professor, inventor, advocate, activist, and research scientist, Jagger founded the Familial Mediterranean Fever Foundation, representing patients with this rare genetic disease. Using epidemiologic methods, she developed the Disease Community Viewpoint Research (DISCOVR) platform and engaged the patient community as a primary source of discovery for therapeutic and quality of life strategies.

# MR. WILLIAM C. JOHNSON

**Ph.D., Michigan Technological University  
Professor of Materials Science and Engineering  
School of Engineering & Applied Science 1993 ~ 2018**

William Johnson received his Bachelor's degree in Applied Physics and Master's and doctoral degrees in Metallurgical Engineering from Michigan Technological University.

Johnson became a tenured full professor in 1990 at Carnegie Mellon University. During this time, he became an internationally recognized leader in the field and was invited to spend time as a visiting scientist and von Humboldt Fellow at prestigious institutions in Germany.

Johnson joined UVA in 1993 as a full professor in the Department of Materials Science and Engineering (DMSE). He is an exceptional teacher and educator, particularly when it comes to applying mathematical tools to quantify the behavior of phase transformations. His teaching was recognized by numerous teaching awards including the first H.S. Morton, Jr. Undergraduate Teaching Award from SEAS, All-University Outstanding Teaching Award, Outstanding Undergraduate and Graduate MSE Teaching Awards, Instructor of the Year from the Commonwealth Graduate Engineering Program, and the American Society of Metals Young Teacher of the Year Award. Johnson was selected as an inaugural member of UVA Academy of Teaching in 2011 and received the 2015 Champion of Diversity Mentoring Award from UVA Office of Graduate and Postdoctoral Affairs.

Johnson published over 135 papers on phase transformations in solids working with his colleagues. He supervised approximately 20 graduate students, many of whom continue to thrive in academic positions around the world. His publications include several seminal monographs, one honoring his former postdoctoral advisor, Dr. Cahn.

In his spare time, Bill is an avid weight lifter and runner, having completed two marathons in the past year. He volunteered as an adjunct chaplain at UVA Medical Center for seven years. In his retirement, Bill continues to advocate for those struggling with mental health challenges and for survivors of sexual abuse. He is the proud father of three children and five grandchildren.

# DR. DAVID M. KAHLER

**M.D., Tulane University**  
**Professor of Orthopaedic Surgery**  
**School of Medicine 1991 ~ 2018**

David Kahler received his Bachelor's in Biological Sciences from Dartmouth College in 1981 and his medical degree from Tulane University in 1985. He stayed in New Orleans to complete his Orthopaedic Surgery residency at Tulane Affiliated Hospitals. He completed his chief residency at Charity Hospital of New Orleans. In 1990, he came to UVA to complete a fellowship in hand surgery and sports medicine under Dr. Frank McCue and began his appointment as an assistant professor of orthopaedic surgery in 1991. He was promoted to an associate professor in 1996, achieved tenure in 2000, and earned the rank of full professor in 2009.

Kahler has directed the residency program and the Trauma Division. He also served as an associate team physician with UVA Athletics. The committees

he served in the School of Medicine and the Medical Center are too many to enumerate, but have included several medical education committees as well as operating room and patient care committees.

Over the course of his career, Kahler has also been recognized by Virginia's Top Doctors, The Best Doctors in America, and Top Doctors. He has published over 80 peer reviewed publications, book chapters, and abstracts. Kahler's groundbreaking and internationally recognized work with computer assisted surgery and three-dimensional imaging during surgery may well be his defining career achievement.

David is passionate about the outdoors, is an avid expert fly fisherman, and treasures his time with his daughter, Katherine.

# MR. VOLKER KAISER

Ph.D., Johns Hopkins University

Associate Professor of German

College of Arts & Sciences 1987 ~ 2019

Volker Kaiser studied in his native Germany until 1981 when he emigrated to the United States. He received his Master's degree from Ohio State in 1982 and his doctorate in German from Johns Hopkins in 1989.

Kaiser's scholarly work—which is focused on literature of the nineteenth and twentieth centuries, mainly, but not exclusively, in German—is remarkable for the rigor and subtlety of its textual exegesis, and for the depth in which it is informed by the several modern philosophical traditions that trace their origins to German idealism. These qualities are especially apparent in his two books, *Das Echo jeder Verschattung. Figur und Reflexion bei Rilke, Benn und Celan* (Vienna, 1993) and *Risus mortis, strange angels: Zur Lektüre "Vom armen B.B.": Eine Studie zu Brecht und Benjamin* (Röhrig Universitätsverlag, 2001).

Kaiser has gravitated toward the intersection of literature and philosophy that is generally called "literary theory," and includes a strong emphasis on intellectual history. Kaiser served two three-year terms as chair of the German Department. He also taught, in both the German Department and the Comparative Literature Program: courses on lyric poetry; political-themed courses on Marx, the Weimar Republic, and Germany after the wall; psychologically-oriented courses on Freud and "Genius and Madness" and "Literature and Horror"; and courses on literature and film. Even in undergraduate language courses, his work was often strikingly imaginative, such as offering his composition-and-conversation students the opportunity to produce a German radio program which was aired on WTJU.

In 2008, Kaiser helped found the Center for German Studies, a flourishing academic organization which focuses on German-speaking countries in the midst of a wide pattern of relations with non-literary disciplines, such as history, philosophy, politics, sociology, religious studies, art, and music. Kaiser was in at the very beginning, when the Center was barely an idea, and without his years of tireless work, including its intellectual framing and fundraising, it would never have become more than an idea.

# MR. RAVINDRA S. KHARE

Ph.D., Lucknow University, India

Professor of Anthropology

College of Arts & Sciences 1971 ~ 2019

Ravindra Khare earned his doctorate at Lucknow University, India, where he taught for seven years. After holding a fellowship at the University of Chicago, he became associate professor and chair of the modernization concentration at the University of Wisconsin, Green Bay. Khare joined the Department of Anthropology at UVA as full professor in 1971.

Over the course of his career, Khare has held visiting fellowships at the School for Advanced Studies in the Social Sciences, Paris, the Berlin Institute for Advanced Study (Wissenschaftskolleg), the Institute for Advanced Study, Princeton, the Commonwealth Center on Literary and Cultural Change (UVA), and twice at the Institute on Social Cultural Anthropology of Oxford University.

Khare's research has focused on social inequality and political-national modernity, as found among the social elite and the subaltern groups engaged in social justice movements in India. Khare's first work was on elites, *The Changing Brahmans* (Chicago, 1970). Professor Khare then made a challenging shift to study the northern Dalit (formerly known as "Untouchables") and their activism in the democratic, yet caste-prejudiced India. Khare's much lauded book, *The Untouchable as Himself* (Cambridge, 1984, re-issued in 2009) presents the results of this ethnographic research. His more recent and continuing publications, such as his edited volume *Caste, Hierarchy and Individualism* (Oxford, 2006, re-issued in 2009), and his co-edited *Caste in Life* (Pearson, 2011), provide the opportunity for criticism and debate from both Eastern and Western traditions of writing about justice and inequality in India, with a special interest in cross-fertilization across the two traditions.

In keeping with the social justice themes of his research, the fostering of interdisciplinary and engaged research has always been an important element in Khare's work. He is the Founding Director of UVA's Center on Critical Human Survival Issues, and has been a long-standing participant in the Center for South Asian Studies. Beyond UVA, Khare served for seven years with Mary Douglas as co-chair of the International Commission on the Anthropology of Food and Food Problems.

# **MS. DANA G. KILGORE**

**M.S., Virginia Polytechnic Institute and State University  
Associate Professor of Accounting  
The University of Virginia's College at Wise 1986 ~ 2018**

Dana Kilgore, Associate Professor of Accounting, earned her Bachelor's and Master's degrees in accounting from Virginia Polytechnic Institute and State University. She also earned the Certificate of Educational Achievement in Governmental Accounting and Auditing from the American Institute of Certified Public Accountants. She became a Certified Public Accountant in 1976 and has practiced and consulted in public accounting for 42 years.

After founding and operating a successful CPA partnership in Wise, VA, Kilgore joined the faculty of UVA's College at Wise. In addition to designing, developing, and leading the accounting major for the Department of Business and Economics, she served three years as chair. An integral part of faculty leadership for the College at Wise over her academic career, she served three terms as a member of the Faculty Senate, including service as chair of the Faculty Senate for three years.

Kilgore is a member of multiple associations and boards, including the Advisory Board of the Accounting Department at Virginia Tech, the American Institute of Certified Public Accountants, the Highland Chapter of the Virginia Society of CPAs, and the Board of the Virginia Coalfield Economic Development Authority (VCEDA). An elected member of the Wise County Board of Supervisors for 12 years, Kilgore serves as its chair. In recognition of her outstanding service, she was the recipient of the Supervisor Service Award from the Virginia Association of Counties.

Dana counts the success of her students as one of her greatest career achievements. Many have become leaders in their communities throughout Virginia, and 77 are practicing Certified Public Accountants.

# DR. IRVING L. KRON

**M.D., Medical College of Wisconsin  
William H. Muller, Jr., Professor of Surgery  
School of Medicine 1982 ~ 2018**

Irving Kron received his undergraduate degree in 1971 from the University of Pennsylvania and earned his medical degree from the Medical College of Wisconsin in 1975. He continued with a General Surgery Residency at the Maine Medical Center in Portland before completing his training in Thoracic Cardiovascular Surgery in 1982 at UVA School of Medicine. Kron was then appointed to the faculty. In 1993, he was named Chief of the Division of Thoracic and Cardiovascular Surgery and became the program director of the Thoracic Residency Program. He developed a successful NIH-funded research laboratory where many residents and students have gained experience in thoracic surgical research.

Kron served as chair of the Department of Surgery from 2002 to 2017. He has served on The American Board of Surgery, The American Board of Thoracic Surgery, The Thoracic Residency Review Committee (including serving as Chair), and NIH study sections.

Over his career, Kron has received several honors and awards. He was elected the 91st President of the American Association of Thoracic Surgery from 2010-2011 and received the prestigious Bakken Scientific Achievement Award for his scientific contributions in cardiothoracic surgery during the 51st Annual Society of Thoracic Surgeons in 2015.

Kron has made over 250 presentations on cardiac and thoracic surgery in the United States and other countries. He has published well over 500 manuscripts, including 160 articles in *The Annals of Thoracic Surgery*. He has published about 30 books and chapters, and has been the principle investigator for more than 20 funded research grants.

# MR. ROBERT D. LANDEL

**Ph.D., Georgia Institute of Technology  
Henry E. McWane Professor of Business Administration  
Darden School of Business Administration 1969 ~ 2019**

Robert Landel has played a key role in the Darden School of Business Administration for 50 years, as a member of its founding faculty.

A Georgia Institute of Technology alumnus among a sea of professors with Harvard Business School backgrounds, the professor of technology and operations management quickly carved out his own space at Darden. Landel innovated curriculum during stints as the director of the doctoral program and associate dean for M.B.A. education, among many other leadership roles. He also has the distinction of having taught in all three of Darden's homes over the years.

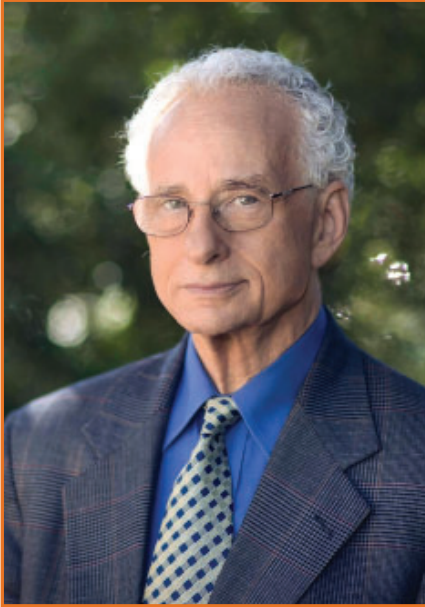

Beyond the many books and scores of cases and papers he has authored, Landel has in recent years been helping to hone “The Bay Game,” an interactive computer game simulating how human decisions affect the health of the Chesapeake Bay. Developed by a multi-disciplinary faculty and student team, the UVA Bay Game combines a video game format with current demographic, economic, and scientific data to create a powerful tool with real-world applications and impact. It has been hailed by federal and state agencies, nongovernmental organizations, and corporate and education leaders as “the first of its kind.”

**50  
Years**

# MR. MELVYN P. LEFFLER

Ph.D., Ohio State University  
Edward Stettinius Professor of History  
College of Arts & Sciences 1986 ~ 2019

Melvyn Leffler, a historian of the Cold War era and an international leader in the field, joined the Corcoran Department of History in 1986, becoming Edward Stettinius Professor of American History in 1993. From 1990 to 1995, he served as department chair, a position from which he argued forcefully—and ultimately successfully—for additional resources that would allow for a better global balance of fields and course offerings. It was during Mel's tenure as chair that the department succeeded in making key tenure-track appointments in Latin American, Chinese, Middle Eastern, French, and Russian history, among other fields.

The department he oversaw thus more accurately reflected the changing geopolitics of the closing years of the twentieth century, geopolitics marked by the dissolution of the Soviet Union, the fall of the Berlin Wall, the rise of China as an economic power, and the ongoing tensions in the Middle East.

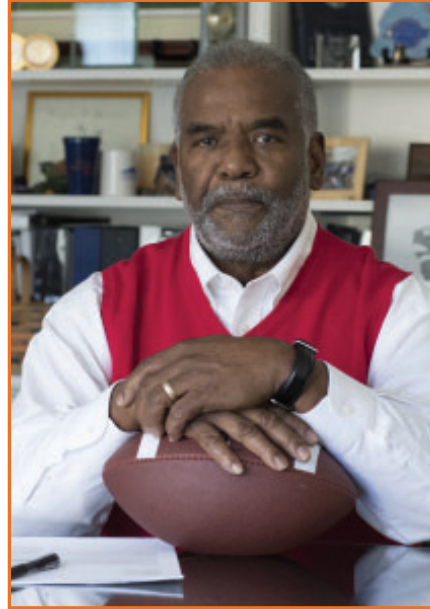

After stepping down as department chair, Leffler soon took on greater responsibilities as dean of the College and Graduate School of Arts and Sciences, a post he held from 1997 to 2001, overseeing the creation of programs in both Media Studies and Jewish Studies. Leffler laid much of the philanthropic groundwork for the South Lawn project—the modern-day reflection of the Jeffersonian Lawn that finally became a reality in 2010.

The author or editor of eleven books—among them the highly acclaimed *A Preponderance of Power: National Security, the Truman Administration, and the Cold War* (1992) and *For the Soul of Mankind: The United States, the Soviet Union, and the Cold War* (2007). The American Historical Association awarded him its Bancroft Prize in 1993 (for *Preponderance*) and its George Louis Beer Prize in 2008 (for *For the Soul of Mankind*). The Society of Historians of American Foreign Relations presented him with its Laura and Norman Graebner Award for lifetime achievement and service in 2012. UVA honored him with its Thomas Jefferson Award for Excellence in Scholarship in 2014.

# DR. MARCUS L. MARTIN

**M.D., Eastern Virginia Medical School  
Professor of Emergency Medicine  
School of Medicine 1996 ~ 2019**

In addition to retiring as Professor of Emergency Medicine, Marcus Martin has served as the Vice President and Chief Officer for Diversity and Equity since 2011. Previously, Martin was the department chair of Emergency Medicine from 1996 to 2006, as well as assistant dean in the School of Medicine, Assistant Vice President for Diversity and Equity, and Associate Vice President for Diversity and Equity.

Martin has been the clinical director of the summer program for underrepresented pre-med students, the Summer Medical Dental Education Program (formerly MAAP). He is the first African American to head a clinical department at UVA. Martin established EMCERT (Emergency Medicine Center for Education, Research and Technology) and the Life Saving Techniques course for medical students at UVA using computerized human patient simulation. With a team of UVA health care providers, Martin traveled to Louisiana in 2005 and 2006 for medical relief efforts after Hurricanes Katrina and Rita. In 2007, Martin was appointed by Governor Tim Kaine to serve on the Secure Commonwealth Panel and as vice chair of the Virginia Tech Incident Review Panel.

Martin is also on the board of the Kenan Institute for Engineering Technology and Science. He is the principal investigator for the NSF grant-funded Virginia-North Carolina Alliance. He leads an alliance of nine Virginia and North Carolina institutions committed to increasing the number of underrepresented minority students receiving science, technology and engineering, and math degrees and serves on numerous committees and boards, including Hospice of the Piedmont, Jefferson School Foundation, Jefferson Scholars Foundation, and Blue Ridge PACE. He also served as the founding vice president of the 100 Black Men of Central Virginia organization, whose goal is to close the achievement gap for African American males. At UVA, Martin is also on the Chaplaincy Service Pastoral Consultation Committee. Among numerous other accolades, Martin was recognized as the 2015 Charlottesville Regional Chamber of Commerce Paul Goodloe McIntire Citizenship Award winner.

Marcus and his wife Donna have four adult children—three are graduates of UVA—and five grandchildren.

# MS. SUSAN L. MINTZ

Ph.D., Syracuse University

Associate Professor of Education, General Faculty

Curry School of Education and Human Development 1999 ~ 2019

Susan Mintz, associate professor in the Curry School of Education and Human Development, has served as a member of the faculty in the Department of Curriculum, Instruction, and Special Education since 1985, and as its program coordinator since 1998.

She is also the program coordinator for the Curriculum and Instruction academic program area. Under her leadership, the program's Master of Education degree transitioned fully online.

Prior to this position, Mintz served as program coordinator for two other areas, Secondary Education and Curriculum, Teaching and Learning.

Beginning in 2008, Mintz served as director of the UVA Leonore Annenberg Fellows Program, a program designed to support teacher education students aspiring to teach in high-need schools. Most recently, she took the leadership role in establishing an online education partnership program between the University of Melbourne and UVA, which launched in 2018.

Mintz spent her career at the Curry School teaching more than a dozen courses, advising undergraduate and graduate students, and serving in a variety of ways, including on the Albemarle County Charter School Committee and the board of the Hospice of the Piedmont.

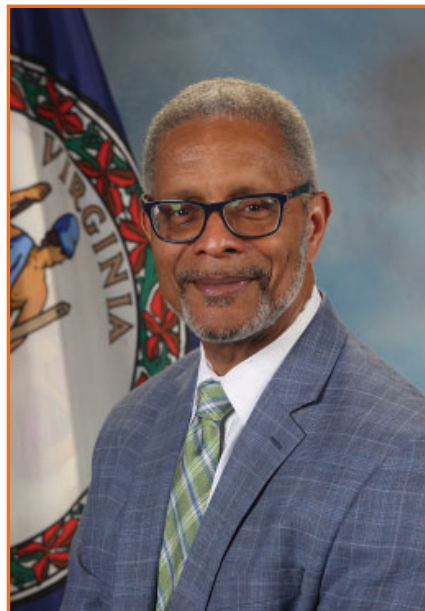

# DR. M. NORMAN OLIVER

**M.D. Case Western Reserve University**

**Professor of Family Medicine**

**School of Medicine 1998 ~ 2019**

Norman Oliver contributed more than 20 years of service to the Department of Family Medicine. Oliver held joint appointments in the Department of Family Medicine and the Department of Public Health Sciences, as well as a courtesy appointment in the Department of Anthropology. He taught undergraduate courses in anthropology and African American Studies, graduate seminars in public health and anthropology, and served on 10 UVA dissertation committees.

Oliver conducted health services research (funded by AHRQ, DOD, and NIH) with a focus on racial and ethnic health inequities. Throughout his time here, Oliver continued to provide patient care, seeing men and women, children and adults, and providing normal obstetric care. Oliver became the Walter M. Seward Professor and Chair of the Department of Family Medicine in 2011. He served in that position until July 2017, when he took personal leave from UVA to become the Deputy Commissioner for Population Health at the Virginia Department of Health. On May 30, 2018, Governor Ralph Northam appointed Oliver the Virginia State Health Commissioner and head of the VDH.

Oliver attended medical school at Case Western Reserve University, where he also obtained his master's degree in medical anthropology. He trained in family medicine at Case, and he then practiced broad-spectrum family medicine in rural Alaska for two years before joining UVA in 1998.

Norman is married to Susan Jacobson. They have two children, Adrienne and Jordan, and a four-year-old granddaughter, Pearl. His immediate retirement plans are to continue his work as Virginia's State Health Commissioner and to help make Virginia the healthiest state in the country.

# MR. STEPHEN E. PLOG

Ph.D., University of Michigan

David A. Harrison, III, Professor of Historical Archaeology

College of Arts & Sciences 1978 ~ 2019

Stephen Plog joined UVA faculty immediately after completing his doctorate. He later served as department chair and as associate dean of Academic Programs in the College and Graduate School of Arts and Sciences from 1995 to 2001. Plog became Commonwealth Professor of UVA in 2001 and in 2007 he was elected to the David A. Harrison Chair in American Archaeology.

Plog's research interests center on the prehistory of the American continent with a particular focus on the United States southwestern region. His writings consistently address broad anthropological questions through detailed data analyses that are both thorough and creative. He has published multiple books and articles on demography, exchange systems, ritual, ecology and social structure in American prehistory. His 1997 book, *Ancient Peoples of the American Southwest*, received the Society for American Archaeology Book Award, and was re-issued in 2008.

Plog initiated a groundbreaking Digital Archaeology project (<http://www.chacoarchive.org/cra/>), that paved the way for the kind of work now being done at Monticello and elsewhere. This project was funded by the National Science Foundation, the Andrew W. Mellon Foundation, and others. Most recently, with support from the National Parks Service, Plog has been centrally involved in developing a smartphone app for visitors to Chaco Canyon.

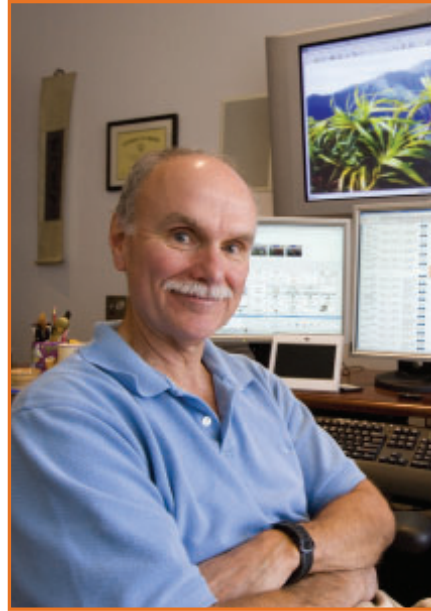

Plog was elected to the National Academy of Sciences in 2007 and to the American Academy of Arts and Sciences in 2015. From 2007 to 2009, Plog also served as editor of *American Antiquity*, the flagship journal for archaeological anthropology in North America.

Stephen's famous evening dessert seminars were particularly popular, as was his January term course involving archival research in the Southwest. He co-authored many articles with his graduate students, who now hold professional museum positions or appointments at other universities.

# MR. DENNIS R. PROFFITT

**Ph.D., The Pennsylvania State University  
Commonwealth Professor of Psychology  
College of Arts & Sciences 1979 ~ 2019**

Dennis Proffitt founded the University's Cognitive Science Degree Program in 1992 and served as its director from 1992 to 2008 and 2014 to 2019. He served as chair of the Department of Psychology from 2008 to 2011, held a presidential appointment to the university's Board of Visitors as Faculty Consultant from 2013 to 2015, and was a founding member and president of the university's Academy of Teaching in 2011. He was awarded the Cavalier Distinguished Teaching Professorship in 1999 and an All University Teaching Award in 1996.

Proffitt developed the new field of embodied cognition. His studies have repeatedly shown that our visual experiences of the world are as much about ourselves—our bodies and purposes—as they are about our physical surroundings. When walking up a hill, for example, we perceive its steepness to be greater if we are encumbered by wearing a heavy backpack. Baseballs look bigger when we are hitting the ball well.

Proffitt has authored about two hundred research publications, mostly in the area of human visual perception. His research has been funded continuously for 40 years by a wide range of federal agencies, including the Air Force, Army, Navy, DARPA, NASA, NIH, and NSF, and by private corporations, like Google, Intel, Microsoft Research, and Walt Disney Imagineering. He was elected a Fellow of the Society of Experimental Psychologists in 2010.

# DR. JOHN C. ROWLINGSON

M.D., State University of New York

Cosmo A. DiFazio Professor of Anesthesiology

School of Medicine 1978 ~ 2018

John Rowlingson came to UVA as a resident in the Department of Anesthesiology in 1975 and subsequently completed a one year fellowship in pain management. He joined the faculty as an assistant professor in 1978 and worked in the operating room, with an emphasis on regional anesthesia, and served as the assistant director of the Pain Management Center (PMC). In 1980, he was named the director of both the Pain Center and the Pain Management Fellowship. Rowlingson was the driving force of the Pain Fellowship program for almost 30 years. In a tribute to his clinical care and through the Grateful Patient Program, the Rowlingson Lectureship in Pain Medicine was established in 2012.

Rowlingson authored over 100 peer-reviewed manuscripts. He was an invited visiting professor at 35 medical centers and universities. He was continuously involved with the annual meeting of the American Society of Anesthesiologists (ASA), serving on many committees, academic panels and workshops. He represented the American Society of Regional Anesthesia and Pain Medicine (ASRA) and then the Virginia Society of Anesthesiologists (VSA) at the ASA House of Delegates for 20 years. He was enthusiastically involved with the ASRA from its inception by the encouragement of his mentor, Dr. Harold Carron. Rowlingson served on numerous committees, panels, workshops, and task forces at regional and annual meetings, and was elected as the President of the national society in 1995.

Rowlingson served on the editorial board of seven major anesthesiology and pain medicine journals. He was an oral board examiner for the American Board of Anesthesiology for 17 years. He was highly recognized with national awards, such as the Distinguished Service Award, the John J. Bonica Award and the Gaston Labat Lecture from the ASRA, the Alon P. Winnie Honorary Lecture from the Dannemiller Foundation, and the President's Award and Lifetime Achievement Award from the VSA.

In retirement, John hopes to maintain friendships with his colleagues, travel to local, regional and national destinations for sight-seeing and cultural enhancement, maintain his physical fitness, and volunteer more at his church.

# DR. THERESA A. SCHLAGER

**M.D., Case Western Reserve University  
Professor in Emergency Medicine  
School of Medicine 1991 ~ 2018**

Theresa Schlager completed her pediatric residency at Strong Memorial Hospital in Rochester, New York, and an Infectious Disease Fellowship under an NIH training grant at UVA. She was recruited to UVA by the departments of Pediatrics and the Division of Infectious Disease in Internal Medicine with an NIH training grant. For 20 years, Schlager examined the clonal diversity and pathogenesis of *Escherichia coli* in Urinary Tract Infection (UTI). She authored over 40 peer reviewed articles with collaborators across the country and spoke at over 50 national and international invited lectures.

As a founding faculty member of UVA's Department of Emergency Medicine and Emergency Medicine Residency Program, Schlager worked diligently to promote excellence in patient care and residency education. She developed the Pediatric Emergency Medicine elective and curriculum which continues to receive outstanding reviews. She led a lecture series on pediatric emergencies for the EM residency program and collaborated with the pediatric infectious disease division on weekly lectures and teaching laboratories for pediatric residents and fellows. She has co-authored more than 30 book chapters relating to pediatric infectious disease, over 30 abstracts, and presented at local, national, and international conferences.

From 2008 to 2018, Schlager was a faculty mentor for the School of Medicine's Curriculum: Practice of Medicine and Clinical Performance Development. She was also an active educator in the Medical Simulation Center. For her leadership and research excellence, she received the Women in Medicine and Science Sharon Hostler Award from UVA and the Virginia Local Legend Award. She has also contributed to the School of Medicine Committee on Women, and until retirement worked with the EM Faculty Recruitment Committee and Promotion-Tenure Committee.

For over 15 years, Theresa and her family have been working internationally to support the needs of Los Esteros De Indio Clinic in Honduras. She has passionately served this community with support, mentorship, and wise counsel for the needy as well as those who are diligently working for the betterment of the locality and region.

# MR. STEPHEN A. SCHUKER

Ph.D., Harvard University  
William W. Corcoran Professor of History  
College of Arts & Sciences 1991 ~ 2018

Stephen Schuker is a modern European historian with a focus on international history. His first book, *The End of French Predominance in Europe: The Financial Crisis of 1924 and the Adoption of the Dawes Plan* (1976), won both the George Louis Beer Prize of the American Historical Association and the Gilbert Chinard Prize of the Society for French Historical Studies. He penned the book, *American "Reparations" to Germany, 1919-33: Implications for the Third-World Debt Crisis* (1988), and an edition, *Deutschland und Frankreich vom Konflikt zur Aussöhnung: Die Gestaltung der westeuropäischen Sicherheit, 1914-1963* (2000).

His work was recognized through appointments as a senior scholar in the Western European Area Grants Program of the Fulbright Commission (1985) and as a Secretary of the Navy Senior Scholar at the Naval War College (1992-1993). He held two fellowships from the American Council of Learned Societies from 1976 to 1977 and in 1986, and a fellowship in international security studies from the John D. and Catherine T. MacArthur Foundation from 1987 to 1988. Schuker supported graduate student research through the substantial Lynde and Harry Bradley Foundation Fellowship he brought to the department in 2008.

Schuker has also been an active public lecturer and participant at international conferences, as well as at the Foreign Policy Institute, the Foreign Service Institute, and the Washington Institute for Foreign Policy Research. His expertise was recognized in the consulting work on Rockefeller Center and mass transit he did in 1975 for the New York City Mayor's Office of Midtown Planning and for York-Zimmerman Television on its 1999 PBS documentary, "A Force More Powerful," on nonviolent resistance movements around the world.

Schuker is currently at work on a new book, *Watch on the Rhine: The Rhineland and the Security of the West, 1914-1950*, a political, diplomatic, and strategic study of the Franco-German conflict.

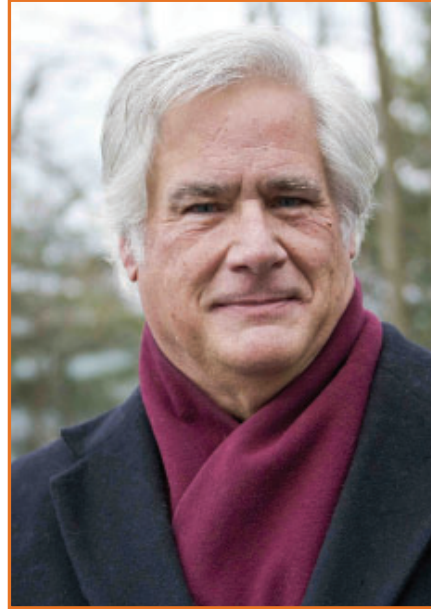

# MR. GARRETT W. SHELDON

Ph.D., Rutgers University

John Morton Beaty Professor of Political Science

The University of Virginia's College at Wise 1983 ~ 2019

Garrett Sheldon is a native Virginian, born in Lee County. He obtained his Master's degree and doctorate in Political Science in 1983 from Rutgers University. Sheldon also completed graduate studies at Oxford University and Princeton Theological Seminary. In 1983, he joined the faculty of UVA's College at Wise. His academic specialty is political theory of the early American republic.

In 1992, Sheldon was awarded SCHEV's Outstanding Faculty Award. He has served on the Board of Directors for the Thomas Jefferson Heritage Society in Charlottesville. In 1996, the College appointed Sheldon the John Morton Beaty Professor of Political Science. In the same year, he was asked to serve as an advisor to the White House, at the invitation of the president.

Sheldon is an internationally known scholar. He has lectured at Oxford University and presented papers at the Moscow State Institute of International Relations and Moscow State University, where he shared his perspectives on American democracy, society, and religion. He was commissioned by the Turkish government to write a manuscript comparing Jefferson and Kemal Ataturk, the father of modern Turkey. Sheldon was also a visiting scholar at the University of Vienna.

Sheldon has been a highly productive scholar. Over his academic career, he has published a dozen books, primarily focusing on early political theory in America. He has produced more than 30 scholarly book chapters and journal articles, and 60 conference papers and presentations, dealing with a wide range of topics in political science.

# MR. A. JOHN SIMMONS

Ph.D., Cornell University

John Allen Hollingsworth Professor of Ethics and Professor of Law  
College of Arts & Sciences 1976 ~ 2019

A. John Simmons joined the Corcoran Department of Philosophy at UVA in 1976. Since 2001, he has also been a faculty member of the UVA Law School. He has spent his entire academic career at UVA, despite invitations from other institutions—most recently declining consideration for the Chichele Professorship in Social and Political Theory at Oxford.

Simmons is regarded as one of the most influential political philosophers writing in English. He gained prominence early in his career with *Moral Principles and Political Obligations* (1979), a groundbreaking book on the moral justification for a state's power over its citizens. He has continued to develop his views on this foundational issue publishing numerous papers and co-authoring a booklength debate. His work in this area represents the most systematically argued articulation of a Lockean (classical liberal) theory of state authority.

Simmons's two volumes on Locke's political philosophy, *The Lockean Theory of Rights* (1992) and *On the Edge of Anarchy* (1993), offer the definitive treatment of Locke's political philosophy, the view credited with providing the theoretical basis for our constitutional democracy. His work on the justification for states' territorial authority and boundary claims laid the cornerstone for a new literature. His 2016 book on that issue, *Boundaries of Authority*, is receiving intense attention.

Simmons won an All-University Teaching Award, and many of his doctoral students have gone on to highly successful academic careers. He served multiple terms on the Dean's Promotion and Tenure committee and as department chair. For twenty years, he was an Associate Editor of the field's top journal, *Philosophy and Public Affairs* and also serves on the advisory board of the field's top book series, *Oxford Studies in Political Philosophy*.

John is married to Nancy Schaubert, a moral philosopher at the University of Richmond. He has two daughters, Shawn, who is a professor at the Milwaukee Institute of Art and Design, and Sarah, who will graduate from UVA this spring with a Classics and Philosophy major.

# MS. KATHRYN C. THORNTON

Ph.D., University of Virginia

Professor of Mechanical and Aerospace Engineering  
School of Engineering & Applied Science 1996 ~ 2019

Kathryn Thornton is a professor at UVA in the School of Engineering and Applied Science and Director of the Aerospace Engineering Program in the Department of Mechanical and Aerospace Engineering.

Selected by NASA in 1984, Thornton is a veteran of four space flights and has logged over 975 hours in space, including more than 21 hours of extravehicular activity (EVA).

In 1989, Thornton was a mission specialist on board the Space Shuttle Discovery. In 1992, she served on board the maiden flight of the new Space Shuttle Endeavour. During the mission, the crew performed four space walks to retrieve, repair, and deploy the International Telecommunications Satellite. The following year, Thornton was again a mission specialist EVA crew member aboard the Space Shuttle Endeavour on the Hubble Space Telescope servicing and repair mission. On her final mission in 1995, Thornton served aboard Space Shuttle Columbia as the payload commander of the second United States Microgravity Laboratory mission.

Since leaving NASA Thornton has served on several NASA review committees and task groups including the Return to Flight Task Group, which evaluated NASA's work in meeting goals set by the Columbia Accident Investigation Board prior to resumption of Space Shuttle flights. In 2008, Thornton co-chaired a workshop entitled, "Examining the Vision for Space Exploration," held at Stanford University and subsequently testified on the results before the Committee on Science and Technology, Subcommittee on Space and Aeronautics of the U.S. House of Representatives. She served on the National Research Council Aeronautics and Space Engineering Board and she currently serves as vice chair of the Space Foundation Board of Directors, and on the boards of the Astronaut Scholarship Foundation and the Virginia Commercial Spaceflight Authority.

Thornton is the recipient of numerous awards including NASA Space Flight Medals, the Explorer Club Lowell Thomas Award, the National Aeronautics Association Robert J. Collier Trophy, the Freedom Foundation Freedom Spirit Award, and the National Intelligence Medal of Achievement. She was inducted into the Astronaut Hall of Fame in 2010.

# MS. ADRIENNE WARD

Ph.D., University of Wisconsin

Associate Professor of Spanish, Italian, and Portuguese

College of Arts & Sciences 1999 ~ 2019

Adrienne Ward, associate professor of Italian in the Department of Spanish, Italian, and Portuguese, has focused her research on seventeenth and eighteenth century Italian literature and culture. She is the author of *Pagodas in Play: Eighteenth Century Representations of China on the Italian Opera Stage* (Bucknell University Press, 2010) and has contributed to numerous edited volumes, including *The Eighteenth Centuries: Global Networks of Enlightenment* (UVA Press). Ward translated Italian letters in the correspondence between Thomas Jefferson and Filippo Mazzei for *The Papers of Thomas Jefferson* (Princeton University Press). Most recently, Adrienne completed an annotated English translation of the early nineteenth century autobiography of Venetian poet Angela Veronese (co-authored with Irene Zanini-Cordi).

From 2011 to 2015, Ward served as director of the Undergraduate Program in Italian Studies. In addition, she has supported students of Italian by serving as director of the Distinguished Majors Program, coordinator of the Gori Museum Internship program, Italian Studies Program Assessment Coordinator, and Study Abroad Advisor. Her courses on the culture of Italian comedy and marriage in early modern drama have been among her most successful.

Ward's university administrative positions include service on the Faculty Senate, and as chair of the Faculty Grant Committee for the Institute of World Languages, among other roles. At the national level, she has held positions on the Modern Language Association (MLA) Delegate Assembly and MLA Forums. For nearly the entirety of her career at the University, Ward has been the director of UVA Education Abroad Programs in Italy. Her administrative service has also included chairing the Siena Curriculum Oversight Committee and co-chairing the Florence Consortium of Public Universities, which is associated with the International Studies Institute at Palazzo Rucellai.

Ward's grants and awards include UVA Summer Grant Fellowships, a Gladys K. Delmas Grant for Study in Venice, and a Mead Faculty award.

# MR. STEVEN S. WASSERMAN

**Ph.D., State University of New York  
Associate Professor of Research in Medical Education  
School of Medicine 2004 ~ 2019**

Steven Wasserman enrolled in the Ecology & Evolution program at SUNY Stony Brook in 1973, received a Smithsonian Tropical Research Institute summer fellowship, and was awarded a Ph.D. in Biological Sciences 1979. He spent the following year on the faculty.

Wasserman moved to UVA in 1980, where he taught and performed research in the University's Department of Biology and received a master's degree in applied statistics. In 1986, he was appointed Director of Biostatistics and Data Processing and Senior Research Coordinator for the Center for Vaccine Development at the University of Maryland School of Medicine. As a biostatistician, he co-authored over 100 publications on clinical trials and research (including the design and analysis of a Phase III vaccine efficacy trial in Indonesia), molecular genetics, immunology, epidemiology, normal and febrile human body temperature, and several other areas of biomedical research. As a research administrator, he oversaw annual external research awards as high as \$33 million, a dedicated research isolation ward, permanent field sites in Chile and Mali, the center's intellectual property portfolio, and approximately 100 in-house faculty and staff.

In 2004, Wasserman returned to Charlottesville to become the Assistant Dean for Research in the School of Medicine. In this role, he has supported the school and institution in several areas including research compliance, internal grant programs, staffing the SOM Research Advisory Committee, direction of the medical student summer research program, SOM emergency preparedness, and strategic planning, among others.

Steven has been known to enjoy listening to and playing classical music, and driving his '65 Volvo. He and his wife, Judith, also share their love of travel, their "adopted" country, Spain, and the exploits of their beloved football club, FC Barcelona.

# MS. JUDITH WHITE

**Ph.D., City University of New York**

**Professor of Cell Biology and Professor of Microbiology,  
Immunology and Cancer Biology**

**School of Medicine 1994 ~ 2019**

Judith White began her career as an Assistant Professor at the University of California with a focus on proteins that mediate enveloped virus entry into host cells; entry is the first step in all viral lifecycles and hence a key target for anti-viral intervention. After acquiring tenure, White moved to UVA in 1994 as a Professor of Cell Biology and Microbiology.

White's major work entailed mechanistic analyses that contributed significantly to a now generally accepted model for how all viral fusion proteins function (despite great differences in sequence and structure). She identified the varied cellular cues that trigger, and the key segments and conformational changes that elicit, the fusion activity of viral fusion proteins. She also discovered that fusion requires the concerted action of several (identical) fusion

proteins and proceeds through a hemifusion intermediate. The model she helped derive for all viral fusion proteins has now been found to hold, in broad strokes, for cellular fusion events.

White helped identify the first cellular (non-viral) membrane fusion protein, and along the way discovered the ADAM family of proteins, which are critical mediators of growth factor signaling and other cellular events. White's work on enveloped viruses also provided the first demonstration that viral fusion, in particular viral fusion proteins, are good targets for therapeutic intervention.

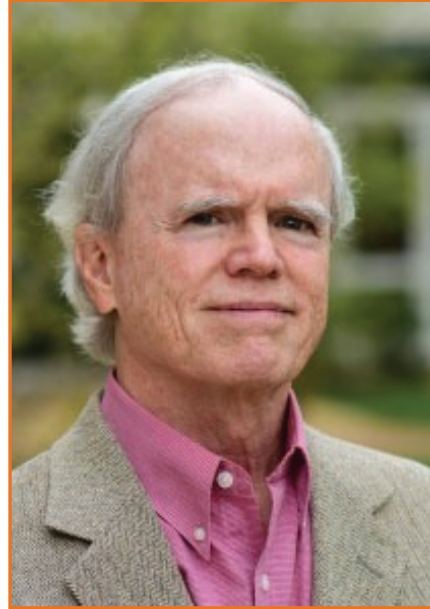

White was a Pew Scholar in the Biomedical Sciences and is a fellow of the American Association for the Advancement of Science. She has chaired and given talks at many national and international meetings and served on many grant review panels, editorial boards, national society committees, and a biotech Scientific Advisory Board.

White loves the discovery process and has especially enjoyed mentoring the 28 graduate students, 17 postdoctoral fellows, and numerous undergraduates and laboratory specialists who have trained in her laboratory. She plans to maintain a foothold in science by co-mentoring several doctoral students, through collaborations, and by staying involved in aspects of the Cell Biology and Microbiology departments.

# MR. STEPHEN K. WHITE

Ph.D., City University of New York  
James Hart Professor of Government  
College of Arts & Sciences 2001 ~ 2019

Stephen White is the recipient of numerous research grants from the Fulbright and Fulbright-Hays programs, the American Council of Learned Societies, the National Endowment for the Humanities, Alexander von Humboldt, Deutscher Akademischer Austauschdienst, and the Spencer Foundation. He has been a visiting scholar or professor at University of Konstanz, Goethe University, Frankfurt, and Erasmus University, Rotterdam. A native of Virginia and graduate of the University, he was recognized by the Virginia State Legislature (SJR 316) in 2019 for Service to the Commonwealth.

White's recent books and projects include: *A Democratic Bearing: Admirable Citizens, Uneven Injustice and Critical Theory* (Cambridge, 2017); *The Ethos of a Late-Modern Citizen* (Harvard, 2009); and *Sustaining Affirmation: The Strengths of Weak Ontology in Political Theory* (Princeton, 2001). With J. Donald Moon, he co-edited an edited volume, *What is Political Theory?* (Sage 2004).

Professor White's recent essays include: "Continental and Analytic Lenses in Relation to the Communicative Action Paradigm: Reconstructive Thoughts" (2016) and "Deliberation, Accountability, and Legitimacy" (2017) in the *European Journal of Political Theory*, with Rachel Wahl; "A More Democratic Bearing: Re-envisioning the Sensibility and Script of the Middle Class," in *Political Theory* (2015); "The Virtual Patriot Syndrome: Tea Partiers and Others," in *Radical Futures Past* (Kentucky, 2014); "'No Saying' in Habermas," in *Political Theory* (2012); "Fullness and Dearth: Depth Experience and Democratic Life," in the *American Political Science Review* (2010); "Violence, Metaphysics, and Weak Ontology," in *Political Theory* (2009); "A Late-Modern Ethos and the Democratic Predicament," in *Democracy and Pluralism* (Routledge, 2009); "Reason and the Ethos of a Late-Modern Citizen," in *Contemporary Debates in Political Philosophy* (Blackwell, 2009).

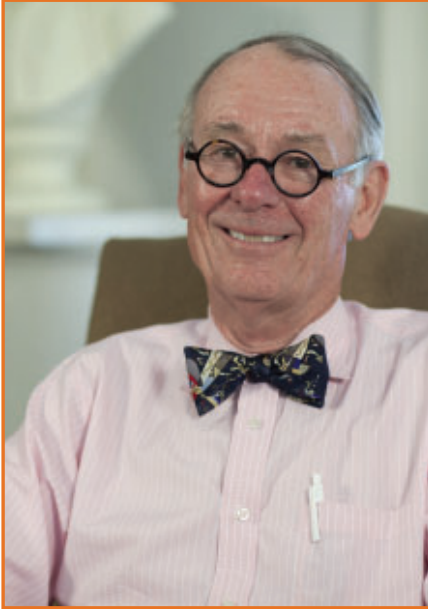

White received an All-University Teaching Award and a Seven Society Teaching Award in 2009.

# MR. RICHARD GUY WILSON

Ph.D., University of Michigan

Commonwealth Professor of Architectural History

School of Architecture 1976 ~ 2019

Richard Guy Wilson was born in a house designed for his parents by the modernist architect Rudolph Schindler. Wilson's first exposure to architecture was about a bold new future; yet, he also grew to love insights from architectural history.

Wilson's research and writing has focused on American architecture from the eighteenth to twentieth centuries. He has authored and co-authored 13 books, is the editor and contributor to five other books, and the author of more than a hundred articles in periodicals, academic journals, and encyclopedias. His most recent research publications include a book on McKim Mead & White and a revised 2019 edition of *Buildings in Virginia*. In recognition of his scholarly achievements, the Society of Architectural Historians (SAH) selected

him to be among the 2019 class of SAH Fellows, an extraordinary honor for architectural historians. Wilson has educated generations of architectural historians who are now in leading positions in many cultural institutions. For his teaching excellence, he received the Distinguished Professor Award at UVA in 2001.

It is in the engagement with the public that Wilson has made an extraordinary impact. He has directed the Victorian Society's Nineteenth Century Summer School since 1979 in Boston and Newport. He has served on many boards, including the National Historic Landmarks, the Virginia State Board, and historic site advisory boards, such as the Preservation Society of Newport County, Monticello, and Preservation Piedmont.

Wilson has curated major museum exhibitions, such as *From the Grounds Up: Thomas Jefferson's Architecture and Design* (2018), *From Village to Grounds: Architecture at the University after Jefferson* (2009), *The American Renaissance, 1876-1917* (1979), *The Arts and Crafts Movement in America* (1987), and *The Machine Age in America* (1986). He has appeared in over 75 television shows made by PBS, C-SPAN, The History Channel, and A&E, including the popular "America's Castle" series, which documented extraordinary mansions and summer homes of America's high society of The Gilded Age.

# MR. GEORGE K. YIN

**J.D., George Washington University  
Edwin S. Cohen Distinguished Professor of Law and Taxation  
School of Law 1994 ~ 2019**

A scholar of tax law and policy, George Yin holds a juris doctorate with honors from George Washington University Law School, a master's degree in education from the University of Florida, and a bachelor's degree in mathematics and economics from the University of Michigan. Yin clerked for the U.S. Court of Claims, practiced law in Washington, D.C., and served as tax counsel to the U.S. Senate Finance Committee. He became faculty in law at the University of Florida, where he earned tenure, and joined the UVA School of Law in 1994.

Yin has published numerous books and articles, including two casebooks and accompanying teaching manuals: Partnership Taxation (Wolters Kluwer, 3rd ed. 2016, with Karen C. Burke) and Corporate Taxation (Wolters Kluwer, 2d ed. 2016, with Karen C. Burke). He has been a frequent presenter at panels, conferences, and roundtables.

From 2003 to 2005, Yin served as chief of staff of the U.S. Congress' Joint Committee on Taxation, one of the most influential tax positions in the country. While at the Joint Committee, Yin assisted Congress on a number of tax bills, including the Jobs and Growth Tax Relief Reconciliation Act of 2003, the Working Families Tax Relief Act of 2004, and the American Jobs Creation Act of 2004.

Yin oversaw a major project for the Senate Finance Committee to reform and simplify the tax laws dealing with corporate-shareholder transactions including corporate mergers, acquisitions, and reorganizations. He served from 1994 to 1999 as a reporter to the American Law Institute's federal tax project concerning the income taxation of private business enterprises, such as closely held corporations, partnerships, and limited liability companies. Over the course of his career, he has served as a consultant to a number of organizations including the ALI, the Department of the Treasury, the U.S. Joint Committee on Taxation, the National Commission on Restructuring the Internal Revenue Service, and the Select Revenue Measures Subcommittee of the U.S. House Committee on Ways and Means. He is currently a member of the IRS Advisory Council. Locally, Yin has served on the board of directors of the Charlottesville Symphony since 2015.

UNIVERSITY *of* VIRGINIA
