Acknowledgments

This orientation is not possible without the collaborative efforts of many individuals and many units across Grounds. Our office would especially like to thank the Center for Teaching Excellence, the Honor Committee, Office of the Dean of Students, Office of the President, University Human Resources, and all of our presenters for sharing their insights and recommendations during the planning process. We would also like to thank all of the previous “new” faculty members who have diligently filled out evaluation questionnaires and/or otherwise shared their post-orientation reflections with us.
